HOLOCAUST 1980's

Any compassionate person will know there are thousands of causes to which they could devote energy and wealth to help relieve an injustice or cruelty. One of the more 'popular' causes is the campaign against whaling.

The whaling industry is dying, but it's taking the last of the great whales with it. Last year, the Japanese company, Taiyo Fishery Co., lost \$20,000,000 on whaling. It's legal fleet is down to one factory-ship, the Nisshan Maru 3 - a floating concentration camp - and a dozen catcher boats. The Japanese policy is one of extermination. One official has said, "When there are no whales left we will have shown our efficiency."

Scientists studying the whale agree that the immensely complex brain of the whales indicates high intelligence. They are "the people of the sea." Yet already the Blue, Humpback, Fin and Right whales are commercially extinct. Even though Bryde's whales are so rare that the International Whaling Commission has recommended a ZERO QUOTA on them, the Japanese gave themselves a 'scientific permit' and slaughtered 454 last year!

Apart from their 'legal' whaling activities the Japanese whalers support illegal pirate whalers all over the world, operating outside IWC regulations.

The infamous ship Sierra, with four Japanese 'advisors' on board, kills hundreds of protected whales each year, including the rare Blue, Humpbacks and Fins. It regularly offloads whale meat onto Japanese refrigerator ships.

Japan has repeatedly ignored IWC resolutions calling on member nations to ban import of whale products from pirates. Her whale meat import from pirate whalers last year increased to 10434 tons from Peru, South Korea, Somalia, Spain, Cyprus, North Korea, China and Chile.

The pirate whalers could not survive without Japanese support. Although IWC quotas have dropped, pirate whale killing has increased to 5000 whales last year. Coastal whale populations are being driven to the point of extinction.

Even today, two more pirate whaling ships are being outfitted in Durban Harbour, Sth. Africa to join the Sierra in it's murderous onslaught against the 'people of the sea'.

Two years ago the Taiyo Fishery Co registered a 'shrimp' boat under the Panamanian flag. The 'shrimp' boat turned up in Peru with a harpoon gun on it's bow and has been killing 500 whales a year, including the endangered Blues.

Two more Japanese stern trawlers have been converted to whalers in Taiwan in the past two years. They are ranging the indiscriminately killing.

Every traveller on this planet has a right to live here. Every traveller has a duty to share with all fellow passengers. The whale is suffering this decades Holocaust.

Our governments should immediately refuse all fishing licences in our waters to any Japanese company with whaling connections - particularly Taiyo Fishery Co. - and we should use all influence we possess to halt all whaling, for ever.

FINGAL PLAYGROUND

A group of parents and teachers at Fingal is planning an adventure playground in the school playground. The playground will be for the community to use, not just the school.

It is intended there be barbeques, log mazes, play equipment, games courts and similar recreational facilities.

Some funds are being provided by the Australian Schools Commission, but donations will also be welcomed by Mr. Swifte.

RED CROSS NOTES

The St. Marys Branch had it's annual Meeting recently. President George Oliver's report highlighted the following activities of the Branch.

Blood Bank: An appeal was made for more donors. The Bank visits four times a year and a visit to it takes but a few minutes.

Ambulance: A new vehicle was received this year, very well appointed. Special thanks were made to Bruce Spilsbury for his assistance; to the voluntary drivers without whom the service would fall and to the staff of the St. Marys Hospital for all their work.

The running costs of the ambulance are 11.7 cents per kilometre which Mr. Oliver reported as most economical.

Annual Appeal: This was reported as an outstanding success, raising a record sum of \$2,486.58. Special mention was made of Pupils and Staff of St. Marys School who raised \$625.00; Lions Club of St. Marys who donated \$500.00 and Cornwall Coal Co. \$100.00. All donors were thanked for their generous support. Mr. Oliver said that without such a fine display of public support, the FREE ambulance service would be hard to maintain.

Membership: The Branch has 19 members, and more would be welcome to share in the socially important and rewarding activities of Red Cross.

IMPRESSIVE LIST

Final caused the surprise of the last found by defeating Avoca by 1 point and are now one game, plus better percentage, than St. Marys. The Tigers were beaten comfortably by Swansea while Campbelltown struggled to beat St. Helens.

Last Saturday the F.D.F.A. played the N.E.F.U. and after shocking kicking for goal in the first half, failed to catch the Union lead and were beaten by 11 points after a good tussle. For the F.D.F.A. Marshall, Auning, Hill, Griffith, Grainger played well while Ken Maynard played one of his best games for the season, kicking three goals. For the N.E.F.U. Hall, Singline, Watts (2), Nichols and Rich were the best players. This week the Tigers meet Avoca in a do or die game if they are to have a chance to make this years final four. The Tigers could surprise and defeat an injury riddled Avoca. Final meets Campbelltown and with the Blues improved form, could prove a handful for the Robins. Top side Swansea plays bottom side St. Helens and the Bulldogs are favored to win this one.

I was very disappointed to hear that the F.D.F.A. delegates voted 10-4 to have the grand final at Campbelltown. Surely it would be more practical and more financial if the final was held in the Valley?

WE HOPE TO SEE YOU AT ST. HELENS.

An issue which could raise some interest in the State election campaign is what I would choose to call 'de-regulation'. The recent brown-brown over the latest regulation of the potato growing business is just a noisy example at the end of a very, very long line of trade restrictions and freedom restricting, rules and regulations under which our 'free enterprise' system has to Labour. A recent article by a current candidate stated that Tasmania has over 200 Boards, Committees and governing agencies to help (?) our society function. It's too much for sensible folk to have to put up with so let us hope the victorious party will give the over-regulation a decent sweep-out and let enterprise work out it's own way of getting done the work it needs to do.

Just about any trade, occupation or industry you care to think about has a series of red-taped regulations saying how much, who can, where, if you pay a fee first lot of rules that interfere with the natural processes an living economy works under. Of course there are a few exceptions; but try and number them and you will be surprised at their scarcity.

There is one recent regulation, Australia wide, that has an effect on every operation, from the tiniest to the most grand; it is that all articles in Imperial measure can no longer be imported into this 'free' country. A hardware merchant could go to jail for selling me a tape measure marked in inches. It's true, the penalty can go that far. The Bureau of Customs notice 79/19 informs those interested that it is against the law to import bathroom scales, thermometers and a host of other items, unless marked in metric units. Kitchen jugs are exempt, you may be pleased to know, as long as they carry the metric units along with the Imperial units. That's comforting.

Significantly, there are a number of exceptions which apply almost exclusively to industry. Those clearly indicate last year's revolt in industry against the attempts of Governments and Metrication Board to foist on the factories measures they find quite inappropriate. I would have thought that the right to buy a tape measure marked in inches, if that is how I wish to think and calculate, would be almost the same as my right to speak any language I choose at home, or use either hand to write with. It seems the New Thought police of the Department of Consumer Affairs think much differently. Oden Nash wrote a poem about foolishness in regulation. It suits our situation as well now as when he wrote it.....

Haggledy piggedly, my black hen,
She lays eggs for gentlemen.

Gentlemen come every day
To count what my black hen doth lay.
If perchance she lay too many,
They fine my hen a pretty penny;
If perchance she fails to lay,
The gentlemen a bonus pay.

Mumbledy pumbledy, my red cow,
She's co-operating now.

At first she didn't understand
That milk production must be planned;

She didn't understand at first
She either had to plan or burst.

But now the government reports
She's giving pints instead of quarts.

Fiddle de dee, my next door neighbours,
They are laughing in their labours.

First they plant the tiny seed,
Then they water, then they weed,

Then they hoe and prune and lop,
Then they raise a record crop.

Then they laugh their sides a-sure
And plough the whole kaboodle wider.

The more you create, the less you earn.
The less you earn, the more you're given,

The less you lead, the more you're driven,
The more you pay, the more they need,

The more you earn, the less you sleep,
And now I lay me down to sleep,

I pray the Lord my soul to take
If some soul destination Advisory Committee
hasn't got it before I wake.
