## THE EAST COAST TOUR

In my place of employment, tourists often ask of me, "What is there to see or do around this area?"

Tourists have varying tastes, and there is not a lot for them to do around St. Marys unless they are interested in bushwalking.

The walk and climb to the summit of St. Patrick's Head, (90mins return) is well worth the effort, for on a clear day, the view is absolutely fantastic. Alternatively, the less strenuous climb to the South Sister Lookout is equally impressive, and, let's not forget the pleasant walk to the waterfall at the top of St. Marys Pass.

There has been tame trout in the St. Marys Rivulet for many years, and children love to feed them.

If you are interested in just scenery, the Forestry Routes through the bushland are lovely, and most roads are quite good. At the White Gum Reserve at Mathinna you will see the tallest White Gum in the world, and while at Mathinna, have a look at the Mathinna Falls.

You could call in at the Fingal Hotel and view the largest collection of whiskey in the Southern Hemisphere.

Tourists who hail from the cities will no doubt enjoy watching the sheep shearing, and one farm at Tullochgorum welcomes visitors at shearing time.

The beaches of the East Coast are some of the most beautiful anywhere in the world, with clean white sand that stretches as far as the eye can see in some places.

The fishing in this area is usually most rewarding for the angler. Whether you are a keen surf, salt river or inland fisherman, there is excellent Trout fishing with access to rivers through several properties, (with permission), Rock fishing on the coast, and Bream fishing in the Scamander River and Georges Bay at St. Helens.

Travelling south from St. Marys, at Bicheno there is a Wild life Park well stocked with many birds and animals, and a Sea Life Centre with

Fish native to the area on display.

You could also try one of Bicheno's famous craybakes, or view the spectacular blowhole.

Most Motel accommodation has facilities for swimming, barbeques, games rooms, bicycle hire, and there are golf courses and tennis courts in most towns.

There are fishing boats for hire in both Bicheno and St. Helens, to take you out to sea for deep sea fishing, or just a leisurely cruise.

Travelling Down the St. Marys Pass is a very scenic route to take you North-east. At Falmouth there is another blowhole, and beautiful views of the coastline.

Scamander is set up well for the tourist, and in season you can hire water pedal bikes.

At St. Helens there is a History Museum, with very interesting exhibits and photographs.

St. Helens, situated on the picturesque Georges Bay, is ideal for the tourist with water-skiing, fishing surfing and many other activities to keep the holiday maker happy.

Further on towards Scottsdale, at Pyenganna there is the famous St. Columba Falls, well worth the visit and many have found that out because you can hardly get a parking spot on most days through the tourist season.

After leaving Pyenganna, you wend your way through some of the most fantastic rain forest areas easily accessible in Tasmania, through the Weldborough Pass.

Most tourists I have spoken to, agree Tasmania is a Beautiful place and quite often they tell me it is their second, third, (and even more) trip here.

### APOLOGY

The article entitled "Census 1986" on the front page of the Valley and East Coast Voice was submitted by Senator John Watson and we wish to apologise for omitting his name.

# THANK YOU

We would like to thank our great friends for the lovely cards, best wishes and presents on our 25th Wedding Anniversary that was celebrated a fortnight ago. We would love to thank our son Michael for the lovely tea we had and his fiancée Annette for the gorgeous presents they gave us.  
Don & Gloria Holmes

On behalf of the Brownies and their mums, I would like to thank the Community for supporting our "Cabbage Patch & Doll Picnic". It was very pleasing to see the young "mums" with their "babies" attending the Picnic and enjoying themselves. This was a very successful day. Photos in the Sun Coast News.  
Denese Brown.

## ST MARYS MENS VOLLEYBALL

At the half way stage of the roster we find:

RAMS	20 pts	195.96%
ST HELENS	16 pts	190.40%
WARRIORS	12 pts	113.90%
FUMAS	8 pts	73.75%
PUB	4 pts	70.00%
CRUSADERS	0 pts	32.44%

Rams, St Helens, Warriors, Pub have all played some very good matches. Pumas & Crusaders, rather young teams, are still putting up a good show in their matches.

SUBS - There are still subs to be paid to secretary Ian Bradbury £10.00 & £5.00 for unemployed and students.

Found - at volleyball 1 mens watch see I. Bradbury.

TAPPYS TIGERS - This is Tappys Tigers third season in the St. Helens Volleyball Association. Team members this roster are a mixed group, two women and five men with no more than four men on the court. All rules apply as normal Volleyball. This years team consists of Ian Bradbury, Andrew Madden, Ricki Madden, Jodi Stingle, from last years roster. Raymond Squires from the 1st Season and New Comers Alana Barr and Matthew Mitchell. Thanks to our sponser, St Marys Hotel. Matches played Monday Nights at St Helens Hall. President P.V. Moore, V/President R. Madden and Secretary I.D. Bradbury.

## GOLF NOTES BY TEE UP ST MARYS

Once again some good news from the Associates Joyce Lohrey gained an eagle on the par 5 419 meters No. 1 hole at St Marys. This to our knowledge has not been achieved by an associate of the St Marys Golf Club. Congratulations Joyce and that will be one you wont improve on for Consistency.

# ST. MARYS DISTRICT HIGH SCHOOL

## WHAT MAKES A GOOD SCHOOL?

Barry Dwyer, an author of several books on education, has prepared the following basic questions for parents to consider when making an assessment of a school.

1. In this school is there an observable balance between freedom and order, and a general atmosphere of kindness, calmness and absorption in worthwhile activities?

2. Is there an emphasis on caring for individuals and catering for their needs rather than on institutional image-making and on whole-class movement through inflexible routines?

3. Do the individual children at all levels of ability, seem to be enjoying a real sense of achievement.

4. Does the curriculum appear to be balanced, with plenty of opportunity for drama, art, craft and music as well as the traditional academic subjects?

5. Do the members of the school community speak to each other courteously? Do they appear sensitive to each other's needs?

6. Is there a clearly understood and enforced discipline policy that is characterised by fairness as well as firmness, and that always places children's welfare above organisational convenience?

7. Does the school environment suggest by its appearance that the people here care about the place they work in?

8. Are parents kept informed in a clear way about the progress of their children?

9. Are there ample opportunities for parents to communicate with the school and to be involved in its day-to-day life?

## PLAYGROUND EQUIPMENT:

The staff and students are very grateful to the Lions Club of St. Marys for the donation of the geodesic display unit as an addition to our primary playground equipment.

This equipment should provide present and future students with a source of real interest and enjoyment for many years.

## OUTDOOR EDUCATION:

Two grades have participated in outdoor education camps this year.

The Grade 9 Camp was held at Coles Bay and activities included bushwalking, camping, water skiing, canoeing, orienteering and rock-climbing.

Grade 7 students are camping at the Riverside High School Outdoor Education Camp at Story's Creek during this week. As well as bushwalking, the development of camping skills and orienteering, the students are involved in historical, scientific, sporting and entertainment activities. They will also visit "Bona Vista".

All these activities should be seen as an important part of the school's curriculum.

## NETBALL:

This year, the school has entered one netball team in the St. Helens District Netball Association. The team consists of girls from Grade 6 through to Grade 10.

On Sunday, 5th April, the girls played their first match of the season and defeated the St. Helens Breakaway Yellow team 36 goals to 15. All the team played exceptionally well with Joanne Griffiths being voted best player on the court by the umpires.

## SECONDARY SWIMMING REPORT:

On Thursday, 27th March, 34 secondary students travelled to Launceston to represent the school at the inaugural N.H.S.S.S.A. Division 2 Swimming Carnival.

Although we finished in last position, a number of students swam particularly well:  
Simon Danger, 2nd U/14 Freestyle  
Amanda Radford, 3rd Open Freestyle  
Giselle Kaye, 4th U/15 Breaststroke  
Bridget Wardlaw, 1st U/15 Backstroke  
Boys U/14 Relay finished 4th  
Girls Open Relay finished 3rd

A special mention must go to Julie Madsen, Cameron Schultz and Grant Young who entered the diving competition.

Peter Moore

SCHOOL FAIR - FRIDAY, APRIL 18th

## HEART DISEASE AND CHOLESTEROL

Will be the topic of the next R.A.F.T. Meeting Guest Speaker will be Julie Crack of THE HEART FOUNDATION. The Meeting will be held in the uniting Church Hall on Tuesday 22nd April at 7.30 pm (Ladies a Plate please).

Heart Week will emphasise the fact that many Australians have a high blood cholesterol. It is important for people to know their own blood cholesterol concentration, and if it is high to take action to lower it by diet or other means. Recent research findings have provided added support for this, hence the need to re-emphasise the message,

### THE FACTS

Cholesterol is a fatty substance made in the liver. In normal amounts it plays an important role in bodily functions. Raised levels in the blood increase the risk of heart attack. The greater the level, the greater the risk.

Cholesterol is also found in most foods with a high animal fat content. A diet high in fats or being overweight can increase the cholesterol level in the blood.

Can high blood cholesterol be prevented? Yes! Most people can avoid high blood cholesterol if a diet low in fats is started at a young age.

### POST OFFICE NEWS

#### Protecting that parcel

From time to time we have customers complain about the condition of a parcel they have received through the post and generally they enquire about compensation for damage.

Australia Post regulations do provide for compensation under certain circumstances. The maximum amount payable varies with the nature of the service used but in all cases the method of packing is of prime importance.

All mail is shifted from point to point in mail bags and, as you can guess, at times quite a lot are moved at one time. Perhaps you have seen a load on one of our vans or trucks or on a trolley at the airport. When the bags are stacked quite a lot of weight is applied to the bottom ones and there is often movement during travel. In handling mail bags a certain amount of bumping also occurs so when packing your parcel think about this.

If you remember that your parcel will almost certainly be subjected to some pressure and bumps in its travels packing becomes practically just a matter of common sense. Glass or china bowls, vases etc. need packing inside the item as well as outside. Light, thin items need support to help prevent them bending. The article should fit snugly in the box so that it isn't damaged by moving about. The bunch of flowers in a light cardboard box will almost certainly be damaged despite being prominently marked as fragile. A photo or picture in a frame with glass also needs special care. The glass will shatter very easily and the movements of the broken fragments can cut the surface of the photo. Light brown paper and thin string often result in torn wrapping allowing contents to get dirty. Things like aerosol spray cans, matches or flammable liquids cannot be sent by post because of the possibility of damage to other mail. For the same reason items with sharp edges or points must be packed in a special way and containers of liquids must be packed in enough absorbent material to soak up the liquid if the container is broken or the lid becomes loose. Australia Post has a pamphlet designed to help with packing and our counter staff are always willing to advise you. Re-wrapping parcels and the special handling of damaged ones is time consuming and part of our operation we would like to be without. Help us to help you. Pack your parcel so we can deliver it in the same condition as you sent it..

## THE GORDON

The Gordon River, one of the longest and most remote of Tasmania rivers has the honour of having the largest flow of any Tasmanian river and is probably the best known outside the State.

The Gordon River was the site of the historic Wilderness Society campaign to save the Franklin and Lower Gordon rivers from damming for hydro-electric development.

The thrill of speeding over the glassy, green and blue-grey carpet is a thrill not to be missed.

People want to see the river banks richly clothed in rain forests and, on a good day, the mirrored reflections that are so clear as to be almost breathtaking.

## REGIONAL COMMUNITY OFFICE OPENS

The exciting concept of a regional community and tourist office has recently been launched and is now in action. Located in the restored area of the historic Tasmanian Hotel building, Fingal, the office provides a central location on the main Esk highway which has been promoted as the 'Gateway to the Coast'.

This new development is seen to be a vital step toward

\*providing the Fingal Valley Community with efficient secretarial services that can be utilised by everyone; and

\*provide a central base from which to initiate and promote the Fingal Valley and East Coast tourism and cottage industries.

Mrs Cheryl Summerfield has been appointed to the position of community secretary for an initial 20 weeks through a Community Employment Program grant sponsored by the Advance Australia Committee. Cheryl has had wide experience in secretarial and office procedure and she would welcome your inquiry for any work for your community, Business or Personal Requirements.

### THE OFFICE SERVICES INCLUDE :-

- \* TYPING
- \* PHOTOCOPYING (enlargements and reductions)
- \* PROMOTIONS
- \* CARD AND TICKETWRITING
- \* REGIONAL COMMUNITY INFORMATION
- \* NOTICE BOARD
- \* TOURIST INFORMATION
- \* FINGAL VALLEY FESTIVAL OFFICE
- \* TASMANIAN HOTEL RESTORATION OFFICE
- \* BICENTENNIAL INFORMATION

The office will be responsible for compiling visitor information. This will enable a library to be established and will need to rely on your snippets of local knowledge and history to ensure its success. It is hoped that your town will contribute any information you consider would be of interest to visitors to your area.

If your support for this concept is forthcoming, the development of Fingal Valley Brochure to support the Regional Brochure (soon to be released) would be assured.

The Fingal Valley deserves the community office that is now established - lets all make sure it works!

### Bill of Rights

PRESS RELEASE: 8.6.86.

The Australian Bill of Rights is one piece of legislation that we, as a democratic nation, do not need. At no time have the rights of the Australian people been threatened. This legislation is the first threat to our accepted way of life.

The Constitution and system of Common Law ensure that our rights are protected at all times. The present bill is a blatant attack upon the federal system of government which we so jealously guard in Australia. Once passed it will have the force of law to automatically repeal any future Commonwealth or Territory laws that may conflict with opinions held by the Human Rights and Equal Opportunity Commission.

It is the thin end of the wedge to destroy State rights and Tasmanians, more than any other state in Australia, know the full extent of that action. Although the Bill does not override State legislation in a direct manner, it will force state governments to submit their laws to the Commission for scrutiny.

The Commission will then decide if the State legislation infringes on any of the rights set out in the Commonwealth Bill.

The Bill is another weapon in the armoury which is imposing a totalitarian regime on Australian people. It joins the affirmative action legislation, industrial democracy and occupational superannuation. If this way of life is not to your liking, let your Federal representative know all about it.

MAX BURR

M.H.F.

### RANDOM BREATH TESTING

.05 introduced 1983; charging level .07.

Weekly road accidents seriously injure 40 people and kill 2.

Alcohol abuse is a contributing factor.

1983-84 - 174611 persons given screening tests - 2880 were submitted for breath analysis - of these 2319 were charged.

Random Breath Testing is reducing average blood alcohol concentration - e.g. from .10 to .07 and the percentage of drivers over .15 - reduced from 16.51 to 13.71.

AT NIGHT 1 in 75 drivers is seriously affected by alcohol - COUNT THEM AS THEY PASS

The price of "safety" - a little inconvenience.

### PROTECT YOUR FAMILY

Protect your family by:-

Fitting modern dead locks to external doors.

Not leaving keys outside.

Installing and using a safety chain on external doors.

Installing an alarm system.

Requesting identification from unknown callers.

Such calls may be part of a thief's reconnaissance.

Record facts about him and his vehicle.

Being cautious of admitting callers to your home.

Not leaving home without telling someone of your destination and returning time.

Educating your children about the dangers associated with strangers, vehicles, roads, parks, fire, electricity, water, poisons, drugs etc.

Training your children to get your approval before they go anywhere.

Ensuring your car is safe and properly driven.

Ensuring your child takes the safest route to and from school.

Seeking police help if you feel you need it.

### MEALS ON WHEELS ANNUAL GENERAL MEETING

# STARDUST

BY CANCER CUSP  
FORTNIGHT BEGINNING APRIL 10 TH, 1986.

ARIES: March 21 - April 20

A period of movement on the home front is indicated. Entertaining and different domestic conditions will all contribute to the activity. There could be changeable job conditions that leave you unsettled.  
LUCKY NUMBERS: 10, 19, 27, 34.

TAURUS: April 21 - May 21

Other people will work side by side with you to achieve a common purpose. You will be independent and responsible for your own contribution. It may appear to be easy. Don't be deceived.  
LUCKY NUMBERS: 1, 20, 29, 37.

GEMINI: May 22 - June 21

Emotionally, you may be a little touchy. Find and use your inner harmony. You will gain from this. A surprise in the post is possible. Those living alone may have a very boring visitor.  
LUCKY NUMBERS: 13, 31, 38, 47.

CANCER: June 22 - July 22

Look forward to improvements in health if you've been ill. A business venture will pay off, so be positive. You may be told an unwelcome truth. Don't fly off the handle.  
LUCKY NUMBERS: 2, 21, 37, 40.

LEO: July 23 - August 23

You'll hear an alarming story, but you'll be pleased to find parts have been greatly exaggerated. You will meet a lively and amusing person. This will lift you.  
LUCKY NUMBERS: 16, 30, 35, 44.

VIRGO: August 24 - September 22

A younger person puzzles you and you may be a little shocked by off-beat behaviour. Be gentle and kind and you'll discover a friend. The post may be a little disappointing.  
LUCKY NUMBERS: 3, 7, 18, 48.

LIBRA: September 23 - October 23

This is a good time to settle long overdue financial matters, and also for doing jobs you've been putting off. You'll find that you tackle practical things easily.

LUCKY NUMBERS: 4, 15, 22, 41.

SCORPIO: October 24 - November 22

News of changes in a friend's life will make you curious. Someone on whom you were relying for help with a difficult task may let you down, but you can manage on your own.

LUCKY NUMBERS: 11, 24, 32, 45.

SAGITTARIUS: November 23 - Dec. 21

A member of the opposite sex is trying to get an introduction. This should happen soon, and a warm friendship will follow. Money may be short but you'll find pleasure in the simple joys.  
LUCKY NUMBERS: 6, 25, 33, 42.

CAPRICORN: December 22 - Jan. 20

A companion's deceit will hurt you and you may decide to see much less of this person in the future. You'll have a welcome surprise when someone in authority sends for you.

LUCKY NUMBERS: 8, 12, 26, 39.

AQUARIUS: January 21 - February 18

You'll need to take action to make sure a promise is kept. You may hide something for safety, then forget where you put it. Make a note of your secret place in order not to waste time.  
LUCKY NUMBERS: 5, 17, 28, 46.

PISCES: February 19 - March 20

Some good fortune should come your way by mid-week. Romance is indicated this week. Don't trust an acquaintance with any information you would sooner not make public.

LUCKY NUMBERS: 9, 14, 23, 43.
