## EDITORIAL

It has been said that the trouble with politicians is that they have both the longest and shortest memories of any other animal. In Fingal last week, the four Labour representatives upheld this every admirably.

Mr. Reece, Mr. Fagan, Mr. Cashion & Dr. Foster all expounded at some length, and with extreme competence, but unfortunately they were subject to this malady of convenient memory lapses.

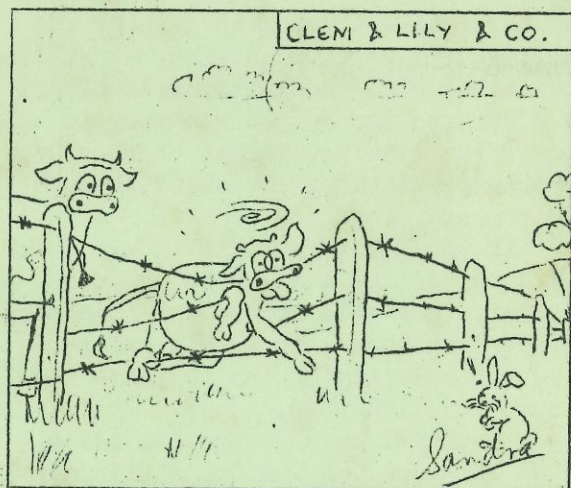

Mr. Reece, for instance, referred to many things, some local and some statewide, but because of the role of this paper, it is probably only necessary to dwell on those subjects relevant to this particular district.

The first subject forgotten was coal. Nobody mentioned coal. Probably naturally enough as it was, Mr. Reece who first knocked coal into its coffin so our present Government could busy itself nailing down the lid.

Mr. Reece was very rightly perturbed at the lack of employment opportunities and the Liberal Government was condemned for not making an effort to rectify this position. But how long ago was it that Mr. Reece was telling an audience in St. Marys that there was nothing his Government could do. At that meeting, Mr. Reece said that if someone could come up with a workable idea, he would grasp it with both hands. There was no doubt that he was quite genuine when he said it but no ideas did come forward then, and he can hardly blame a following Government for being equally as impoverished now.

Mr. Reece also expressed his fears about the infiltration of big contractors into the traditional realm of the small local contractor in the P.W.D.

On this subject and other criticisms about Mr. Bothames change of mind on the three year Parliament, petrol tax, and inter-zone permits, he was on good solid ground and very convincing.

"IT'S EASY GETTING OVER, BUT IT SURE IS NO PICNIC GETTING BACK!"

However, neither he nor Mr. Cashion were on very good foundations when relating to other issues involving Public Works. They referred to the progress made on state and especially local roads while they were in office. Well, in 35 years progress at any speed would be inevitable and their assumption that the Liberal, Centre Coalition was heading for a mess, after one year in office, is hardly a valid argument. In fact, some lack of support for Labour last election in this area could have been traced directly to roads like the Rossarden and Storey's Creek Road, and there is little profit now to claim they were going to seal this road if they had not been defeated. Mr. Fagan's speech was generally directed towards reminiscing and the basic idea of the Labour movement a thing he does extremely well. His sentiments were no doubt shared by all present.

## Editorial Continued:

Dr. Foster, for his part, also gave a summary of the basic Labor ideals for the health and welfare of country areas. His speech was very well received by the large audience and was of a simple, direct and humane nature. Unfortunately, we are inclined to think the good doctor also has a conveniently short memory when it is suitable.

So convincing was he, that one could be forgiven for imagining that if Labor had stayed in, the St. Marys District Hospital would now be gaining the benefits of a Geriatrics Wing, as well as a new kitchen and administrative block.

Perhaps so, but we remember in the time of the last Government there seemed to be no great hurry to establish such improvements.

If the Labor Party is to win back confidence of the local vote in this district, they will need a far more positive approach than last week's effort, where the majority of the audience was in sympathy with them.

They will need to present ideas rather than condemn the Opposition and in this writer's opinion, a term out of office and a time for cleaning out the dead wood, could eventually make Labor a far better Party.

## TOUCHE'

Song of the month must be; 'Three days of Wonder' or 'Where have all the Sanitary Officers Gone'

Seen at Akaroa, three daring young men in their magnificent beach buggy. It seems they took the children for a ride across the sand dunes. Our informant tells us the men had most of the rides while the kids played in the sand.

APOLOGY: Our apologies are offered to the secretary of the Surf Fishing Competitions held last month near St. Helens. Owing to lack of space, we were not able to insert the information the secretary forwarded to us. We did however, intend to notify the public of the Fishing Competition in Coming Events. Unfortunately, due to an oversight, this was not done. For this we apologise.

## L E T T E R S

Dear Editor,

I wonder if we Valley and East Coast locals take our local paper too much for granted - do we realize how lucky we are? It draws attention to the particular needs, and interests of our district and we can use it to air our grievances, and our personal points of view to describe our pleasures and pastimes state our demands, advertise our wants and as much more as we wish (at very low cost too). We have all this only through the efforts of the hard-working staff of the Valley and East Coast Voice, and I would like to put on record my personal appreciation and thanks for their achievement.

Signed.... Absent Local  
Longford

Sir,

There is something rotten in this here hamlet. I refer of course, to the local tip. It is obvious to all who pass by, that the pungent, permeating fragrance wafting forth from this well patronised area is rapidly becoming harder to bear. It appears that the delicate fragrance has a soothing effect upon the insect world for it is here that an excessive army of winged creatures have found seclusion, and freedom from the ravages of Mortein and Pea-Beau. Even the Health Inspector found it too much after three days! So what about us? The poor inhabitants of this otherwise delightful community. What happens now?

Signed.... Anti-Pollution,  
St. Marys

Dear Val,

My boyfriend will never tell me what he has been up to during the week. Isn't it true that courting couples should be frank and earnest.

Prior,

Dear Prior,

It's usually best dear if one of them is a girl.

F.D.F.A. - N.T.F.A. RESERVES MATCH.  
Held at York Park on 2nd May.

In steady rain, on a very slippery surface, the Fingal Association suffered their first defeat in Luncastown for a number of years. Although they only won by four points, the Northern side handled the conditions much better and with extra match practice (four games compared with F.D.F.A.'s two) managed to hold off the determined Fingal side, who made their run too late. Stephen Salter, snarling after being named only 19th man in the original side was adjudged best F.D.F.A. player and won the coveted Cornwall Hotel Trophy which is donated by Mr Castley each year. Apart from Salter, it would be hard to find one F.D.F.A. player who played well for the full game; Wayne Freeman, Bob Bye and Michael Barnes all showed out at times, while John Smith turned in a great last quarter and almost won the game. Name players like Barr, McCannan and White were not suited by the conditions and it is hoped that it will be a much finer day when we meet the Midlands. For the North, Clarke and Young were probably the best players. summarise, a poor standard but interesting game with few highlights apart from Stephen Salter's ruck work and Young's saving marks around the ground.

Fingal and St.Helens stayed a high class game at Fingal with the Swans downing last year's premiers by five points. One of the highlights of the game, was the clash between Tony Turner and Derek Chapple, with Turner on top the first half but Chapple got on top the second and this may be a big factor in St.Helens win. Roger Yates, the Fingal speedster turned on a terrific game for his side and as one of the youngest players in the Association looks to have a big future ahead. St.Helens have gained yet another promising recruit in Ken Scott from Circular Head and with a bit more condition will be a valuable player.

St Marys and Rossarden had a very hard and fast game at St Marys with the fortunes of the game fluctuating throughout. St.Marys after yet another shocking third quarter came good in the last, and defeated the Redlegs by 21 points. The victory for St Marys was due a lot to Deane, Morris and Newman (unfortunately Les Newman broke his ankle in an accident on Saturday night and all the football public wish him a speedy recovery!). Avoca defeated Swansea by 27 points at Avoca and with Denis Williams and Kevin Yard back, Avoca are going to be a hard side to beat.

Details of last week's games-

SWANSEA details not available

Best Avoca - White, Richardson, Yard, Smith, Clay, Brown

Best Swansea - Amos, Fry, Press, Gray, Lyne, Graham.

The match of the day next week should be at Fingal when St Marys and the Blues meet in a replay of last years grand final. I'll stick my neck out and pick St Marys to turn the table and win a close game. St Helens meet Avoca at St Helens and the improving Avoca side could beat St Helens.

Rossarden should win the other game against Swansea at Swansea.

POINTS: St Marys 12; St Helens 8; Fingal 8; Rossarden 4; Avoca 4; Swansea 0.

IN THE EYE OF THE LAW

The season for fireworks is again with us, and it is desired to bring to notice of readers, the serious view the law takes with regard to letting-off fireworks in the streets and public places. It is an accepted fact that children should not be deprived of the enjoyment of letting off their fireworks, but they should be taught and encouraged to do so within the limits of the law. There is no restriction on the letting-off of fireworks on your property, but reasonable care should be taken to minimise the risk of injury. On the other hand, Section 13(1)(f) of the Police Offences Act, states: "No person, IN ANY PUBLIC PLACE, shall throw, let off, or set fire to any fireworks." PENALTY: Forty dollars, or three months imprisonment. The definition of "Public Place" is very broad, and includes almost any place, whether on payment of admission fee or not. The co-operation of all is sought, in order to prevent possible injury or annoyance to others, and eliminate the possibility of property damage.

# HEALTH NOTES

## THE COMMON COLD -- BABY CATCHES IT

In spite of all mother's precautions, baby may still catch his first cold. This makes it hard for him to breathe and he needs to take more breaths between sucks. A first cold hits a baby quite hard. If it does, his cold may be a case for the doctor.

Sometimes babies get hot and rub their ears. In babies, the most common complication of a cold, is an infection of the middle ear.

It is not difficult to transport a baby with a cold to a doctor's surgery and it is much better than getting panicky during the night and waiting for the doctor to come in the morning.

Illness or disease does not meet resistance in the very small and the important thing is to have early consultation. While he is snuffly in his cot and finding it difficult to breathe, it is a good idea to raise his head a little. Put a pillow under the mattress, or raise the back legs of the cot with a board on the floor. During feeding, make sure his nostrils are not gummed up with mucus. A little camphorated oil rubbed on his chest, may ease breathing. If you apply Vicks instead of camphorated oil, make sure you rub vaseline on his chest before the Vicks, as Vicks has a tendency to irritate tender baby skin.

If you want baby to avoid catching somebody else's cold, avoid concentrated groups of people, in buses, shops and crowded rooms. If you have to go into town, it is better to leave baby at home with grandma or a friend. Remember, the smaller he is, the more likely he is to catch a cold.

## "ST MARYS FIRE BRIGADE INEFFICIENT"

SAID Mr Norm Morrison at the Public Meeting called by the Rural Fire Brigade Captain, Mr R. Legge. The meeting was called so that the Fire Brigade could make reply to this statement.

At this Meeting Mr Legge denied Mr Morrison's statement. He asked why Mr Morrison had called a meeting of the business people of St Marys the previous week to discuss the Fire Brigade.

When he had first come to live in St Marys, Mr Morrison said, he had made enquiries about the means and method of Fire Protection and Fire Fighting in the township. Unable to obtain information to appease his worries, he had finally gathered together some of those who work in the township to discuss the situation.

Mr Legge said that Mr Morrison must have asked the wrong people, to which Mr Morrison replied that he had asked in several obvious quarters.

Other members of the meeting added that they were a bit in the dark as to the running of the Fire Brigade and what was its scope.

Mr Legge stated that at the next meeting of the Fire Brigade he would arrange to have a display of the fire fighting equipment for the Public and that the day and time of the display would be well advertised in the Local Paper.

Dr Lim, the District Dental Officer, expressed his interest in the Fire Brigade and suggested that a few new members would be an asset, and that there might be members of the public who would like to join the Brigade.

## CIVIL DEFENCE & EMERGENCY SERVICES

### ORGANISATION

for the Fingal Municipality

At their April meeting, the Fingal Council decided to join the Tasmanian Civil Defence & Emergency Services Organisation and to appoint Mr A.R.M. Jackson of Falmouth as Local Controller. He will be responsible for the raising, training & controlling of the organisation.

The first step is to find a suitable building for use as headquarters, the storage of equipment & as a rallying point in time of emergency. It has been decided that this should be located in St Marys as Police Headquarters are located there and as is the largest centre of population. It has also been decided that the priority will be given to raising rescue, first aid, transport and welfare sections. When facilities and instructors are available, volunteers will be sought. In the meantime, Mr Jackson would be pleased to answer any enquiries.
