"LOCAL ENTRIES IN TARGA TASMANIA"

Targa Tasmania is an exciting new international classic - A tarmac rally with competitive stages on closed roads for the best touring, sport and GT cars in the world.

Its inaugural year was in April/May 1992 when Tasmania hosted this prestige International Motoring Classic.

The competition concept is drawn directly from the best features of the "Mille Miglia", the "Coupe Des Alpes" and "The Tour De Corse". It is a genuine red blooded motor sport competition with over 500Kms of racing stages.

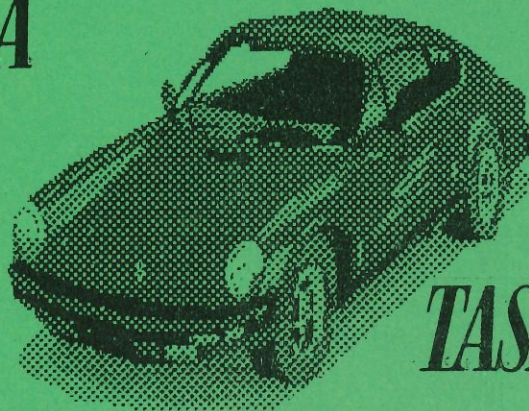

Targa Tasmania will cater for 240 select cars including overseas competitors. Entries are selected from nominations by a panel of Targa Tasmania managers.

In 1993 Targa takes on a local interest with entries from Bill Targett of St Marys and Trevor Fidler of Scamander in Bill's 1965 Chevrolet Impala Super Sport Coupe, Race no. 449, and Dave Wagner of Fingal and John McGiveron of St Marys in Dave's 1973 Chevrolet Corvette Stingray Coupe, Race no. 908.

Lets get behind the boys and give them all our support in this truly International event.

Targa begins on 28 April with the cars travelling through St Marys on the morning of Thursday 29 April between 10 am & 11 am.

SENATE VITAL FOR TASMANIA

The opinion polls are showing a close outcome for the March 13 Election. Indeed no one can tell whether Dr. Hewson or Mr. Keating will be Prime Minister.

While attention is naturally focused on who will win Government there is a grave danger that the importance of Senate representation is being overlooked.

With only 5 seats out of 148 in the House of Representatives, (the House of Government) Tasmania can have little influence on Government especially when New South Wales has 50 seats and Victoria 38.

However, in the Senate where each State has equal representation (12 Senators), Tasmania has the potential voting power to transform Tasmania by ensuring fair treatment from Canberra whoever is in Government.

This effective voting power is lost when we elect Party endorsed Senators to represent Tasmania. The Senate (constitutionally the States' House) was designed to protect the smaller States from the powers of central Government which may be exercised unfairly.

A Senator who "belongs" to either Government or Opposition is committed to put the Party first, which means that Tasmania is put second or last.

In the past the division of Tasmanian Senators on political party lines has enabled Canberra to take control of Tasmania through its external powers and unfair distribution of funds.

Federal intervention in domestic affairs now reaches into almost every community activity and includes regulation of mining, forestry, agriculture, fishing, tourism, industrial relations, traditional recreational pursuits and community and family values.

Unless this erosion of the States' rights is halted, Tasmania has no future.

The Tasmania Senate Team is the only Senate group committed to give voice and vote to restore the power of the people through its Senate representation.

Free of Party ties, the Tasmania Senate Team candidates will consult directly with the people, their representative organisations and the State Parliament.

It will be our commitment and endeavour to represent the majority view. For too long Governments have been manipulated by single issue groups to the disadvantage of the majority.

HONG KONG SECONDARY SCHOOLS **ADOPTION SCHEME**

Our school is fortunate to be linked with the Wong Tia Shan Memorial College in Hong Kong.

This scheme is supported by the Education Department of Hong Kong and aims at establishing and maintaining links between secondary schools in Hong Kong and Lions Clubs in other parts of the world. It aims at :

1. Promoting mutual understanding, co-operation and assistance in cultural cross-fertilisation.

2. Enriching and broadening the educational experience of secondary schools.

3. Promoting the spirit of dedication and commitment to the community service and the future of Hong Kong.

4. Sharing the experience and success in various aspects of life to enrich and upgrade the standards of living in the world.

5. Promoting and developing a universal concept of the world as a harmonious society.

Wong Tai Shan Memorial College is a Government-aided Anglo-Chinese Grammar School founded in 1975. The motto of the school is "Loyalty, Forgiveness, Diligence and Sharpness". Other than attainment of academic success, the emphasis of the school is on "cultivating virtuous character of the students who are to serve and contribute to society later on". The school is known for strict discipline and the teaching of an austere way of living. Students are constantly reminded of the importance of integrity, good manners and the proper way of handling things and inter-personal relationships.

There is a staff of 49 teachers, 28 air-conditioned classrooms and 11 special rooms, a 1000 seat school hall, a baseball court and a covered playground.

Our students look forward to forging closer links with the students of Wong Tai Shan Memorial College.

WHAT MAKES A GOOD SCHOOL?

I was heartened to read an article in the Mercury (front page) with the headlines "Marks don't maketh the school". I pinned it up on the whiteboard but few of you probably had the opportunity to read it. I have therefore asked that it appear on the news sheet. The great thing about this article is that the research backs up what many of us have been saying and feeling for many years and the general community is obviously backing us. It is unfortunate that big mouthed politicians and some people who think they are experts get so much airplay on their views. Following the reading of this article I was bouyed up sufficiently to ask my 7/8 group what they thought made a food school. Their results follow the article.

MARKS DON'T MAKETH THE SCHOOL

THE best schools are those which give students a good grounding for adult life rather than top exam results, a national survey says.

Only 19 per cent said good marks made a better school. Sixty-five per cent said good-quality teachers produced the most effective school.

Ethos, or the school climate, was important to 58 per cent while 52 per cent rated school curriculum as the main factor, says the Effective Schools Project.

More than 7000 schools and community groups around the country were surveyed by the Australian Council of Educational Research.

Dr Kevin Piper, one of the authors of the report, said better schools gave each student the skills to deal with adult life.

"Schools are not to be exclusively concerned with cognitive activities," he said.

"They are also to be concerned with personal and so-

cial development of students and with the quality of their lives in schools as students."

The survey also revealed little support for a "back to basics" approach.

Less than 1 per cent said large-scale testing or other forms of assessment were important.

The most important characteristic of the curriculum in an effective school was its relevance to the needs and interests of the students, the local community and wider society.

Only 7 per cent rated rigour as an important aspect of school curriculum.

Nine per cent mentioned skills and just 8 per cent rated outcomes.

Dr Piper said the study highlighted the big gap between the views of the policy makers and those of the teachers, parents and the community about the future of schooling.

Break O'Day Council Elections

Saturday 27th March, 1993

I have been a member of the Fingal Council since March 1991, giving my attention to the management of the whole Municipality and using the experience I have gained in over 20 years of legal practice.

My areas of activity have included Council committees, particularly the Planning & Development committee which has been implementing the Fingal Planning Scheme. I have taken part in the Portland - Fingal Amalgamation Committee so am aware of all areas covered by the new Council.

I am keen to see the unique attractions of this whole new municipality which include forestry, mining, fishing, recreational activities, history and tourism harnessed to bring stability and economic growth for our ratepayers whilst preserving our preferred way of life.

I am married with 2 adult children and my wife, Pat, teaches at St Helens District High School. We have been residents of Scamander for some years and enjoy participation in community activities

I appreciated your support in 1991 and ask for it again for this election in 1993.

Break 'O Day Council Election

Saturday 27th March, 1993

I am a family man, father of 3 school aged children. I have lived in the area since 1976. I am a teacher and have taught at St Marys prior to St Helens where I am now currently based. I have established a marine science laboratory at St Helens which is enjoyed by children across the municipality.

I was elected Treasurer of Portland in my first term and have been a member of the Fingal - Portland Amalgamation Committee and argued in Council for equal representation from both Fingal and Portland on the new municipality.

I am concerned about development across the whole of the new municipality that will secure jobs for young people whilst looking after the quality environment we have already. I am particularly concerned that we should have sensible coastal development.

Communication with the electorate is a vital issue. I have instigated and edited a Council newspaper to provide ready access by ratepayers and residents to municipal affairs. I would strongly support a continuation of such a newsletter for Break 'O Day.

MUNICIPALITY OF FINGAL

NEWSLETTER TO RESIDENTS

SPECIAL ELECTION

On Saturday 27 March 1993 a special election is to be held to elect 9 persons from the relevant parts of the Municipality of Portland and the Municipality of Fingal for appointment to the new Break O'Day Council. The relevant parts are the areas of the present Portland and Fingal Municipalities which are to amalgamate to form the new Break O'Day Council. This excludes Musselroe Bay/Poole areas (which are to become part of Dorset Municipality) and Avoca Rossarden and Royal George (which become part of Northern Midlands Municipality).

THE IMPORTANCE OF VOTING IN THIS ELECTION CANNOT BE TOO HIGHLY STRESSED

The Councillors elected are to hold office for a term of three years. There will be no wards or districts in the election:-that is each voter may select from the full field of candidates. The Hare-Clark system of preferential voting will be used. To record your vote under this system you must place the figures "1", "2", "3" and so on against the names of as many candidates as you wish to vote for, in your order of preference, but so that the same number does not appear more than once.

Tick or crosses will render your vote informal.

The candidates standing for election are:

CORBY, Philip Leigh	GROSE, Peter Martin
HARLOW, Roger William Harrison	HOGARTH, Harold Bruce
HOLDER, Henry Burbury	LARBY, James Alvin
LeFEVRE, Nancy Jean	LEGGE, Robert William
MacGREGOR, Andrew Donald	NAPIER, James Ross
RATTRAY, Kevin Douglas	SALTER, Stephen Gordon
TUCKER, John William	WESTON, Jeffrey Dubrelle

In order for you to vote, your name must appear on the confirmed Portland-Fingal Electoral Index and your property address, rental address or residential address must fall within the boundaries of the amalgamated Municipality.

A person whose name previously appeared on BOTH the Fingal and the Portland Electoral Indexes and is otherwise eligible will only have ONE VOTE in the Special Election for the amalgamated municipality. The only exception is the case of an elector who is also the deputy for a registered company.

THANK YOU TO RETIRING COUNCILLORS

Warden Salter would like to thank all Councillors for their assistance and thank Councillors Kevin Faulkner, Paul Fearman, Joan Gee, Dianne Masters and Ruth Saunders, for their contribution to the Fingal Council as they are not seeking election to the new Council.

APPOINTMENT OF GENERAL MANAGER

Warden MacGregor of the Portland Council and Warden Salter of the Fingal Council on behalf of the Portland/Fingal Local Transition Committee announced that Mr John Brown the current Deputy Council Clerk of the Fingal Council has been appointed to the position of General Manager of the new Break O'Day Council.

WE LOOK FORWARD TO SEEING YOU ON POLLING DAY

JUST WHAT IS GST?

In the 1930's the Federal Government of the day introduced the Canadian Wholesale Sales Tax System which was applied to goods at the point between manufacturers and sellers. It is a simplistic system designed for the prevailing conditions in the 1930's and has no regard for the myriad ways of the Sales Tax impacts on the production of goods and services in our modern world.

There is not a business or accountant in Australia who would not like to see the end of the mountain of legislation and compliance rules associated with this crude system.

There are few options for its replacement. A Consumer Tax is seen by 21 out of 24 developed countries in the world as the fairest and simplest system and a Goods and Services Tax is the most appropriate for Australia.

Quite simply, the current Sales Tax is totally expunged from the system - taking with it a raft of costs to businesses - resulting in a big drop in the bare cost of goods and services all round Australia.

Then, at that point, Sales Tax is replaced by the GST - but this time it impacts at a uniform rate - on absolutely everyone buying anything in Australia.

At no point does it impact on business - it washes through it on a simple debit and credit system.

GST does not get levied on food, council rates, financial services, health, education and other "social injustice" services.

ST MARYS DISTRICT COMMUNITY SUPPORT GROUP

We managed to have a wonderful sausage sizzle last month, despite the disgusting weather. We also did some serious work and, we hope, really got things moving as far as organising the recycling project at the tip. We plan to distribute a leaflet to all households in the St Marys area in the next month detailing what our plans are for sorting household rubbish. If you've got any ideas or worries about what we hope to do, please either come along to our next meeting - details below - or ring Lynda - the Rural Youth Information Service (Telephone: (003) 44 7911.

The support group isn't just about recycling - that came about because we wanted to become known in the community and we thought it was a good idea for a first step. Our main aim is to provide support for all unemployed people in the area. Being part of a group such as this enables people to realise that they aren't the only ones who are unemployed. It allows contact with other people who have useful information to help deal with situations which arise because of lack of work and all that goes with that. It's

sometimes amazing to see how confidence grows when people see they definitely do have a contribution to make to their community.

We'd love to see you at our next meeting which is at the St Marys Library again at 10.30 a.m. on Tuesday, 23rd March. See you there!
