Let's Look At **LETS**

WHAT IS LETS?

LETS has many meanings, **LOCAL EMPLOYMENT TRADING SYSTEM**: developing employable skills in areas of unemployment.

LOCAL ENERGY TRANSFER SYSTEM: liberating skills that are not accessible to the conventional monetary system.

LOCAL ENTERPRISE TRAINING SYSTEM: a low cost method of conducting business feasibility systems.

Some people liken **LETS** to a baby sitting club and it does work along those lines, some people may call it a bartering system and looking very simplistically it is, but it's much more.

LETS is an information system, like a vast community notice board, or a market place.

It is available and useful to anyone who lives in the area served by a **LET System**.

Individuals and businesses can use it to advertise their goods and services and to locate what they want.

LETS also operates something like a community bank. Each member can open an account and use the mutual credit system to trade locally with other members, when

acceptable. Members are free to use the local currency in any way that supports the local community.

HOW DO YOU USE IT?

Anyone who uses money can use **LETS**.

You can use it to get goods and services from any other members. This could include produce from local growers, nurseries, crafts, used cars, massage, typing, firewood, sewing, haircuts, prepared meals and much more

You get local currency for all of that as well as for teaching sport, music, language skills, gardening, childcare, retail and wholesale trade, and anything else anyone has to offer.

IS IT EASY TO USE?

YES. When two people make a deal they agree on a price to be offered, and whether all or part of that will be paid in local currency.

The local currency is transferred from one account to another by filling in a standard acknowledgement form. It's that simple.

WHAT ADVANTAGES ARE THERE?

Local currency is available, when Federal money is scarce.

You are never in debt, a negative balance means you have issued local money to others, **NOT** borrowed it from them.

There are:

- **NO** interest charges
- **NO** repayment schedules
- **NO** tight squeezes at the end of the month.

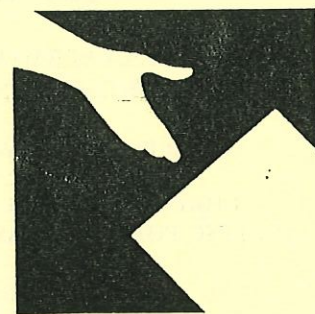

ARE THERE ANY RISKS?

Not unless you want to take them.

You're not liable for other peoples affairs.

You may be liable for tax, depending what you do. Act accordingly.

How about DSS payments? As there are some 100 **LETSystems** active in Australia, five in Tasmania, this does not appear a major problem.

SMACD INC IS PRESENTLY RESEARCHING THE LETSystem. IF YOU FEEL IT HAS A PLACE IN OUR COMMUNITY, SPEAK TO A COMMITTEE MEMBER.

**WHAT IS NATIONAL WATER WEEK?**

National Water Week is being held throughout Australia until 29th October 1994.

As a nation we are aware of major environmental problems. however, Australians have not paid much attention to our water resources.

National Water Week is an educational campaign aimed at helping people understand what it takes to look after our water resources. The campaign encourages people to be aware of and care about the limitations of the water resource and to minimise their impact on water quality and quantity.

National Water Week is a way of encouraging us all to look after water in the same way we care for the earth. After all, water is the liquid that keeps all plants, animals and human being alive. National Water Week will teach people how to look after our water and to use it wisely.

WHEN STOPPED AT TRAFFIC LIGHTS - REMEMBER THESE TIPS.

1. Check your rear view mirror when stopping and stopped.
 2. Leave your vehicle in first gear (at least until all traffic behind is stopped and no danger exists)
 3. Leave a safety zone of at least two metres or more when stationary at a stopline or in a line of stationary traffic.
- Remember the Two Second Rule as well, when driving at any speed. Identify a stationary object on the roadside, and when the vehicle in front passes it, count "one thousand and one, one thousand and two" - and if your vehicle passes that point before you've finished saying this phrase - you're too close. Simple!!

HOSPITAL HAPPENINGS

DAY CENTRE NEWS

This month has been an extremely productive one at Day Centre.

I feel our theme for the month could have been "Gingerbread Houses". We have made 50 and have sold all of them at the Centre and also at the Fingal Spring Market where many of our clients enjoyed the Spring sunshine and festive occasion.

The 12th October was a very special day.

Our card players had good games of a very high standard. We had even thought of a tournament. ARE YOU INTERESTED?

Creativity was in the air with our craft people who made beautiful Christmas ornaments and really extended themselves. A couple of our talented people made gingerbread houses and hearts ready for our October 22 stall at Fingal.

Our special treat was aromatherapy with the fragrance of mandarine floating through the hospital awakening our memories of times past and for those who wanted to pamper themselves or who wanted to be pampered Rose and Geranium massage oil made our hands feel beautiful, refreshed and relaxed.

THIS IS A SAMPLE OF THE WONDERFUL TIME WE HAVE AT DAY CENTRE.

!!!REMEMBER!!! - New faces are always welcome. We would like to extend an invitation to anyone who would like to spend a pleasant day out in happy surroundings.

SPEECH & DRAMA NEWS

Many thanks to all the parents, friends and relations who attended the performances of Scool Daze last week. From the many positive comments I have received it was clearly a successful and entertaining musical.

Congratulations and thanks to all staff and students involved.

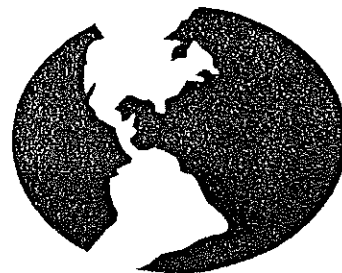

Some Scool Daze photographs are available, also we hope to have copies of the Scool Daze videos available soon.

DREAMS

It wanders through all parts of the
globe,
Everybody has one,
They can be your wildest fantasies,
Or your worst nightmare,
They can be as soft as clouds,
Or as hard as the ground you walk
upon,
They are dreams.

SMACD REPORT

SUN TAKES GOLFERS BY SURPRISE

The Golfing Fun Day at the St Marys Sports Centre was enjoyed by most of the 60 participants with the unexpected hot weather taking its toll on just a few. Slip, slop, slap was called for and those who came unprepared were reminded that the hole in the ozone layer still exists.

It was most encouraging to see our Politicians supporting the event, with Mr George Shaw travelling from Longford to participate and Mr Dick Adams donating a trophy for the day. Thank you both for your support. A big thank you to all members of the Sports Centre who assisted us on the day. We could not have done it without you.

To Bruce for arranging the stage and the musicians, you really did help to make this a family day and to see the youth of St Marys volunteer their talent gives us all hope for the future.

THANK YOU ALL.

The ladies from SMACD Inc supplied a great meal and the local business houses and community members donated great raffle prizes and trophies. Thank you.

**WHAT YOU CAN DO TO MAKE YOUR
FAMILY SAFER FROM FIRE.**

1. Put up smoke detectors properly. Keep your smoke detectors clean, and test them every week. **DETECTORS THAT DO NOT WORK WILL NOT ALERT YOU..**

2. Replace your smoke detectors immediately if they are not working properly.

3. Follow fire safety rules and prevent hazardous situations:

- * Use smoking materials properly. Never smoke in bed.
- * Keep matches and cigarette lighters away from children.
- * Store flammable materials in proper containers. Never use them near an open flame or sparks.
- * Keep electrical appliances in good condition. Do not overload electrical circuits.
- * Keep stoves, fireplaces, chimneys and barbecue grills grease free, make sure they are properly installed away from any combustible materials.
- * Keep portable heaters and open flames such as candles away from combustible materials.
- * Do not allow rubbish to accumulate.
- * Keep a supply of batteries on hand for your battery powered smoke detectors.

4. Develop a family escape plan and practice it with your entire family. Be sure to include small children in your practice.

* Draw a floor plan of your home and find two ways to exit from each room. There should be one way to get out of each bedroom without opening the door.

* Explain to children what the smoke alarm detector mean. Teach them that they must be prepared to leave the home by themselves if necessary. Show them how to check to see if doors are hot before opening them. Show them how to use the alternate exit if the door is hot and should not be opened.

* Decide on a meeting place a safe distance from your house. **MAKE** sure that all your children understand that they should go and wait for you there if there is a fire.

* Hold fire drills at least every six months to make sure that everyone, even small children know what to do to escape safely.

* Know where to call the Fire Brigade from outside your home.

LANDCARE NEWS

by Jan Sparkes

Australia is the world's driest inhabited continent and for much of our history little thought has been given to the efficient provision and use of water resources. Water quality problems such as algae bloom and dry land salting, and the ravages of drought conditions throughout much of Australia is increasing the community awareness of these landcare issues and encouraging everyone of us to develop the necessary skills and strategies to address these problems.

It is important that as a community we recognise that water is a dwindling resource and therefore we all need to be careful not to waste it. In urban areas, the average Australian household uses 250 000 litres of water every year!

The CSIRO booklet entitled "When Should I Water" claims that more domestic gardens fail due to over watering than from lack of water.

Here are some tips for efficient water use in the garden.

- 1 Mulch, mulch, mulch - straw, hay, grass clippings, leaves, sawdust, manures, pine bark, pine needles and stones are all valuable ways to keep the ground warm and moist in the cooler months and cool and moist during the summer.
- 2 Water in the evening, infrequently but deeply, this encourages deep rooted plants which are more drought tolerant.
- 3 Improve soil structure to increase its water holding capacity and minimise run-off.
- 4 Grow drought resistant plants, particularly those native to your area. Fortunately there are many native plants that compliment the cottage garden approach. Combine native and exotic plants to create invaluable habitats for butterflies and birds. Callistemons, Grevilleas, native daisies provide hundreds of species. It is worth checking with your local nursery to find out which ones grow well in your area and garden.

SCOOOL DAZE

Congratulations to the St Marys District High School and all involved in the production of such a great show.

All the students put so much effort into their parts and were obviously enjoying themselves.

I'm sure most of the audience could relate to the school yard and disco scenes as little has changed over the years.

A most enjoyable night-tempted to go back the second night.

Scool Daze was certainly the talk of the town on Friday.

Well done Mr Plowright

St Marys V Central

Traditionally Central have been finals material, so the game was expected to be tough, especially first up at Scottsdale. After winning the toss and batting, Chris Riley & Jamie McKimmie got the side off to a great start. Jamie the first to go, run out for 19, was soon followed by Chris, unfortunately playing on for a well made 27. The opening stand was 49 off only 12 overs. Captain Jeff Woods, who looked comfortable, unfortunately paid the ultimate price for a lofted shot, out for 17. Two wickets then fell cheaply, but Marcus Greenwood's 29 and Glenn McDonald's 23 took the score to 6/132. With ten overs still remaining, our youngsters occupied the crease to gain some valuable time in the middle, Daniel Gillies showing promise before running out of partners. Best of Central's bowlers in a strong line-up was veteran and ex St Marys player Craig Searle, 3/23 off his ten overs. St Marys were all out for 147.

Our bowling lacked the pace of Central, but we had both openers back in the pavilion for 44 but that was the total joy for our team with Craig Searle and Tony Saunders batting through to a victory for Central 2/150.

Again our youngsters got a feel of the game with a few overs. Best of the bowlers M Greenwood 1/14 and G McDonald 1/26. A promising start, but let's hope for more runs next week against St Helens at home. Come along and enjoy our cricket, we look forward to seeing some spectators on the hill.

This week's **Duck Awards** go to Mick Kringle and Daniel Guy. Daniel having the unfortunate nickname of "Duck". All I can say is things can only get better lads.

GOLF NOTES by Tee Up

St Marys have just completed a very successful Tournament. The attendances for the three days have been wonderful and I heard the course was wonderful and the weather wonderful so put all together and you must have a terrific and very good finale to a year of the best in our field of sport. Every day was well represented and I believe we had Neville Oliver grace our Club and Errol Lohrey. It was very pleasing to have Neville come to play with his son. The Ladies Gross A Grade went to B Stingle 126 for 27 Hole Event Nett A Grade L Dakin 102.
