## Meet your local trader

A **Meet your local trader** series begins this week. The first ones received are from Coach house Restaurant and Designer Hair both in St Marys.. Over the coming months we hope to receive and publish profiles on the St Marys businesses and invite people in business in other towns to send in theirs.

## Disability Discrimination

*Council are currently in the process of putting together a Project Team to address the issue of Disability Discrimination within the Municipality. The Project Team will be made up of a Councillor, two Council Officers a resident with a disability and two others.*

*Their task will be to compile an inventory of the state of buildings, facilities, parks etc. - review current activities - develop policies and programmes and allocate responsibility - set goals and targets - establish evaluation mechanisms - develop and implement a communication and training programme.*

## Misuse of public litter bins costing you money

Everyday Council works staff spend a considerable amount of time emptying public litterbins of domestic or household garbage. As a ratepayer this is costing you money.

These public bins are provided for the disposal of street litter only. Dumping household garbage in these bins is pure laziness on the part of people who cannot be bothered travelling to a Council operated waste transfer or tipping site. The contents of these garbage bags often give us an indication as to which household they originated from and can often be traced back to the offender. All offenders will be asked to account for their actions.

## FIRE SAFETY starts with you!

- EVERY YEAR in Australia, fire destroys millions of dollars worth of property and personal possessions, and claims many lives and causes horrific burns.
- Yet in many instances the fires are caused by human error, carelessness and/or complacency by otherwise sensible, intelligent people.
- It's not often known or recognised that the occupants of a building on fire can become very ill or even die from smoke inhalation.
- Even if the fire is confined to a small area, or just smoulders, and doesn't present an immediate threat to lives, the toxic fumes given off by plastics and similar materials can mix with the smoke to make a lethal cocktail.
- An inexpensive smoke alarm can detect the smoke and alert occupants so that they can escape!
- The Tasmanian Fire Service has published a brochure which gives terrific fire prevention advice for a range of everyday situations.
- With their permission and our grateful thanks we have reprinted some of the handy hints.

- ◆ Is the Fire Brigade phone number on the telephone?
- ◆ Are all electric light bulbs so arranged or guarded that they never touch any material and set it on fire?
- ◆ Are all the cords to lamps and other electrical appliances in good repair and out in the open, not under rugs or through doorways?
- ◆ Is your house number visible from the street so that emergency vehicles can find you?
- ◆ Do you have a smoke alarm installed in your home? Is it tested monthly?
- ◆ Do you sleep with your bedroom door closed to allow you the time to escape before smoke enters? A smoke alarm should be fitted.
- ◆ Do you have a fire extinguisher in your home?
- ◆ Is your garden hose permanently attached to the tap and does it reach all points of the house.

## WANTED

### History of the St Marys District

- I am working out of the St Helens History Room and am desperately seeking information of the history of the St Marys district for the 100 years 1880 - 1980.
- I can take this information in writing, voice recording, or copies of photos, valuable papers and photos would not need leave your home.
- It is important to record our past for future generations. Think about these two subjects:

- Local Shops and Businesses over the last 100 years
- The Home Guard during World War II

## CORNWALL HISTORY

Once upon a time this proud little country township boasted at least six general purpose shops plus a Post Office - Apart from Lou Maney's butcher's Shop and the bakery the other shops stocked everything one ever needed.

Probably better stocked than our stores in St Marys today. At Burkett's one could buy our groceries, nails etc, boots and shoes, wood, dresses, sheets, material by the yard and for the miner- carbide (for his pit lamp). Stuarts store held the same range of goods and as it was in the centre of the township probably was handier for some people. Later this store was taken over by Dawborn's and managed by Miss Cavel Haas. When the Post Mistress (Mrs Targett) retired the Post Office was stationed there. The last owner of the shop was Nancy Graham.

When Mrs Targett had the Post Office it was often a meeting place, as the mail came twice daily by train (morning & afternoon) most people came at 4.30pm for their mail.

Lou Maney would call in the morning for the meat order and deliver it so you could cook it for tea. (We had no freezers or fridges then).

When you think back Cornwall lost their identity when the mine closed down, people having to move to find employment.

Also when thinking over the years 1936 to about 1945, the years the miners were fighting for a living wage - how good the shop keepers were to the people- they must have carried a few bad debts but also I know that the miners with pride would pay off their debts. They were a very proud bunch of people. Una Camplin

## LETTER TO THE EDITOR

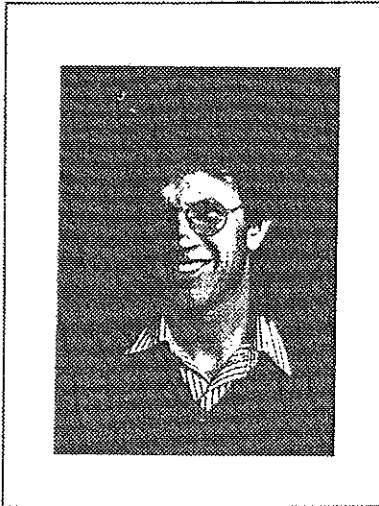

Dear Sir

Every time my friends and I go to the park we get told off by a man who lives close by. We are all sick of this as we were taught the park was there to have fun.

Rhet

## TEACHER PROFILE

I thought it may be interesting for parents if we did a teacher profile each newsletter in order to give you some idea of where teachers have taught, what they've done etc. As I haven't asked any other staff members if they'd like to volunteer. I'd better be first off the rank.

John Marshall

### Teaching Qualifications:

B Sc Bachelor of Science  
Dip Ed Diploma of Education  
M Ed Master of Education  
TTC Tasmanian Teaching Certificate

### Places Taught:

1977 Queechy High School (maths, science teacher)  
1978 Bridgewater High School (maths, science teacher)  
1979-81 St Marys District High School (maths, science, agriculture science)  
1982-1990 St Helens District High School (maths, science, computing)  
1991 Acting Principal Bothwell District High School  
1992-1996 St Marys District High School. (AST 3, Assistant Principal, Principal)

Born in Devonport in 1954. Moved at a very young age and was brought up on a dairy farm. Went to school at Yolla Area School until grade 6, then Wynyard High for years 7-10 and completed matriculation at Burnie High School. After completing year 12, I worked in an accounting firm in Burnie, but hated it. In 1973 I gained a studentship (luckily they existed back then) went to university in Hobart and studied a science degree for three years followed by a diploma of education. Married in 1978 and asked for a transfer to the east coast at the end of that year. The department was only too happy to have a teacher who wanted to transfer from Hobart to the east coast. Have four children all attending a government state school.

Hobbies: bush walking, gardening

Sport: When younger played a lot of sport particularly hockey, athletic champion at school (hard to believe now).

Aims at work: To ensure that St Marys District High is seen as being an outstanding school offering an up-to-date education to students whose behaviour is second to none.

Future: At the present time my thoughts don't go beyond St Marys District High School. There is still much to achieve and I have no plans or wishes to leave a school where students and staff are great to work with.

## Farm News

This is very much a *THANK YOU* so, without further ado:

**THANKS:** To Anna Propsting and Chris Price-Browne of Websters and Waratah Fencing. Through their generosity and hard work (with able assistance from Ivan Grose, Peter Barnes and Landcare students) we have a secure new fence between the Kindergarten and our western boundary.

**THANKS:** To John McGiveron from Cornwall Coal Co. for the steel fence posts and to Richard McNaught for putting them in.

**THANKS:** To Bill Mullan for the generous donation of fence posts which will allow construction of a new fence between the shearing shed and bridge across the creek, forming a new walkway for students.

**THANKS:** To Trevor Midson and Hubert Kluber for sawing up our felled trees and to Janine, Leonie Voss, Uma Pratap and John Marshall for lugging the tops to the mulcher. (They all gave up their Saturday to help out).

**THANKS:** To Anne-Marie, Doug and Jonno of East Coast Mulching for converting unwanted tops to valuable mulch for the school's gardens.

\*With support and assistance of people such of these, the future of the school farm seems assured.

The grounds also provided a magnificent backdrop for the primary cross-country - which in turn gave the calves and steers a great afternoon's entertainment.

### THANKS ALSO TO:

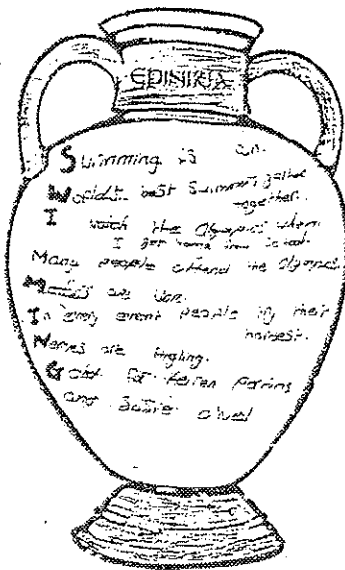

- Rob Costain and Tas Forestry for support and provision of trees;
- Olivier Chartrain - old fence line removal;
- Trevor Viney for construction and electrification of new fences;
- Leonie Voss for her continued hard work keeping the garden area tended and caring for the ducks.
- Jan Sparkes - she organised the "free fencing" and provided soup and sandwiches as well as muscle on Saturday.

THANKS TO YOU ALL!

FAIRY TALES  
By Gr1 Lodge

Once there lived a pretty fairy. She could sprinkle dust and her name was Rose. She lived in a fern gully. She had four friends and she played with her friends every day. Her friends were named Blossom, Spring, Snow-white and Hamson. One day they had a really big party. They invited elves, tooth fairies, the icicle man who puts frost on your lawn. Now the party began but she changed her mind and the party stopped and she went to bed.

BY JALIESA TAYLOR

Once there was a fairy, she lived in a palace. She was a spring fairy. Her name was Blossom. She loved to dance in the moon. One night she invited her friends to dance with her. She saw a boy fairy. Her eyes filled with love and she went over to him and asked him to marry her. "Yes" said the boy fairy. The next day they got married. She had a baby. They called him Tinsle. On the first flying lesson he could fly, so they all went for a fly in the rainforest.

BY TROY STREET

Once there were five bright and they had very bright dresses, one had a very very plain dress and she was very sad. Another one was called Tinkerbelle, she said to her friend "What is wrong? Your dress is dull. Ask Mr Snowflake what he can do to put colour in your dress". "No I can't" said Mr Snowflake, "I am too busy, go to Rainbow she can help you", and she did help her. She lived happily ever after.

## THANK YOU

*In appreciation to all who have helped and  
shown interest and kindness to us and the  
family during our 13 years in St Marys  
For the 7 1/2 years we were active with the  
Salvation Army we would like to thank all who  
helped us.*

*For the adults, parents & children who  
attended the Salvation Army, The Fellowship  
and sharing with the other Churches, the  
Community work, the Football grounds, the  
Hotels, Trotting Club and all who supported  
with finance -for our work- St Marys District  
High School, Doctor I. Naidoo & Dr G.  
Geniola.*

*During the last 5 1/2 years in retirement that  
fellowship, friendship and kindness has  
continued.*

*We would like to say a special thank you to  
Drs Naidoo & Geniola, St Marys  
Hospital, Police, Ambulance Attendants and  
all who helped and showed kindness to us and  
Graeme when he needed their urgent  
attention.*

*We will miss our many friends, but a big thank  
you to all*

# COUNCIL INVOLVEMENT BRINGS OVER ONE MILLION DOLLARS INTO REGION

The benefits that the region has received from Break O'Day Council's involvement with Labour Market Programme's (LEAP and JOBSKILLS) has been significant.

To date Council have paid out \$565,825 in wages and when combined with the Rural and Remote Funding and Special Project Support there is a total of \$1,111,525 which has come into the municipality as a result of our involvement with the schemes.

The physical and capital improvements to the municipality which have come about purely through our involvement is also significant. Some of them are;

- Improvements to the St Helens Foreshore.
- Renovation of the old Fingal Jail and Stables.
- Construction of the walking track to Grey Mares Tail Falls.
- Improvements to the Cenotaph and Town Hall area at St Marys.
- Walking tracks and footpaths at Scamander and Beaumaris.
- Development of Kings Park at St Helens.
- Development of walking tracks at Humbug Point.
- Creation of Musical Playground at St Marys.

Break O'Day Council and the Hobart City Council are the only two Local Government Authorities within the state the act as Brokers and Hobart's involvement was only with LEAP and not JOBSKILLS.

## BENEFITS TO PARTICIPANTS

The benefit that trainees gained from the schemes has also been significant. People working on the schemes were classified as trainees, not employees and six weeks of each six month training period was taken up with training.

The training that people received was broad and included such things as;

- Business Management.
- First Aid.
- Chain Saw operation.
- Tree Felling.
- Small Engine Maintenance.
- Back Hoe Licence.
- Truck Licence.
- Computer Skills.
- Business Calculation.

Compiled by Steven French. Community/Economic Development Officer, Break O'Day Council.

# INTERNATIONAL MEALS ON WHEELS DAY

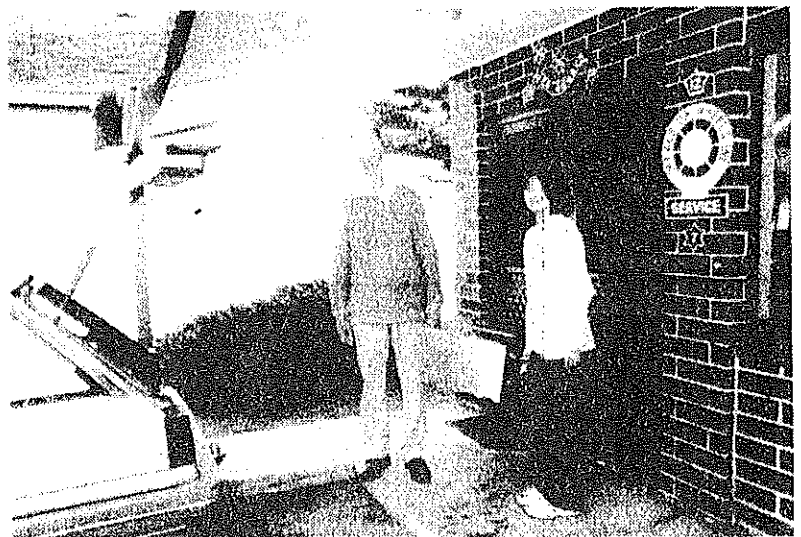

Wednesday 4th September 1996

The first Wednesday in September is both  
NATIONAL & INTERNATIONAL  
MEALS ON WHEELS DAY

In Australia nearly 60,000  
special people will receive  
a meal from Meals on Wheels  
Services in all States and  
Territories.

Additionally, many thousands  
more meals will be served  
throughout the world on this day.

## Suggested Australian Menu

<i>Soup:</i>	<i>Chicken &amp; Vegetable</i>
<i>Main Course:</i>	<i>Cottage Pie</i>
	<i>Vegetables</i>
<i>Dessert:</i>	<i>Lemon Pudding</i>

*(Usual diets will be observed)*

This day is designed to promote community awareness of the value of this vital service, organised to enable people to remain living at home, no matter where their National or International location.

Brochure sponsored by

## LANDCARE NEWS

Jan Sparkes

*Tasmania's trees are* in decline in the low rainfall districts of this state. Locally, the extent of die back varies according to the site conditions, the size of the remnant of bush, soil type or depth and past land management practices. Changing climate, possums and insects are all implicated in this decline of our rural trees, especially amongst eucalypts.

The white gum or *Eucalyptus viminalis* is the tree most affected by dieback. This was the dominant tree in the Midlands and was widely distributed throughout region. As it has nutritious and palatable foliage it is very attractive to possums and insects.

All the rainfall charts of the region indicate that there has been a sustained dry period in Tasmania since the mid 1970's with only average or below average rainfalls since about 1975, and the stress caused by drought is a major factor in rural tree decline.

There is no doubt about it that European settlement of Tasmania has resulted in very significant changes to the environment. In the lower rainfall areas over 95% of the original vegetation has been changed by clearing, the introduction of exotic grasses and weeds, and by grazing. The introduction of superphosphates has caused chemical changes to the soil and the grazing animals have compacted the soils.

In the longer term there is nothing that can be done to save old paddock trees, if only through old age, these trees are going to die. Where it is not possible to establish natural regeneration, new areas of trees need to be established through plantings or direct sowing of seed.

In order to ensure regeneration it is important that the area is fenced off; not to exclude stock totally but to control stock movement. Where trees are only providing nesting sites for possums and/or starlings, which is often the case with isolated dead or dying paddock trees, they are better off removed.

At St Marys District High School a number of old eucalypts have been removed to make way for a swift parrot reserve and a future saw log resource. With the assistance of Robin Costain from Forestry Tasmania and through Private Forests Tasmania the Junior Landcare Group will be planting approximately a thousand trees this spring.

Many thanks to all the people who helped with the working bee last weekend to split and stack the wood from the trees felled to clear the area for the proposed plantation.

For further information on Tassie's tree decline read:

Tree Decline in Tasmania

A review of the factors implicated in tree decline and management recommendations for its control.

Prepared by Mark Neyland under a project funded by the National Landcare Programme.

# Meet your local Trader

## Andrew & Jackie Wilson Proprietors of Coach House Restaurant

We had been discussing going into business for several months but it had been one of those 'pie in the sky' pipe dreams until Andrew saw the "Coachhouse" advertised at a rental little more than what we were paying for house rental. To cut a long story short, in less than a fortnight we were in business, our only capital - Andrew's week's wages and a small amount of savings I had.

Our first winter was pretty tough - we were surviving on a day-to-day basis - just! We owe our survival to the terrific support of the locals. From there we have moved ahead in leaps and bounds to a successful business without the headaches and sleepless nights of those early days. We have built the business from pizzas and snacks to pizzas, light

meals, main meals, full range of take aways, cheap grocery items, handcrafts and artwork. We also cater for functions and meetings. - we had two

successful Christmas functions last year and also do children's parties. If you haven't already tried our cappuccinos, come in and try one - they are the best in Tassie! We are also BYO licensed. Twelve months ago also saw us become a member of the Tasmanian Visitor Information Network. As a requirement of this Andrew and I successfully completed the "Aussie Host" course and we are now an accredited Aussie Host business.

Andrew is now a volunteer ambulance officer for St Marys and we are expecting our third child shortly and combined with our long business hours, this leaves us with very little time for socialising but we have settled happily into St Marys and expect to be here for a few years yet.

Andrew and Lakeisha are keen Collingwood supporters whereas I am a Bombers fan through and through (as Josh will be if I have my way). This season has seen Andrew rather subdued however, on the subject of football.

# Meet your local Trader

by Roger & Jenny Blackburn  
Designer Hair Studio

I was born and raised in Hobart. Did my apprenticeship and had my own salon for about seven years. In that time I had two children and the busy life style we had became all too much.

We thought about moving to the east coast for many years, even before the children were born, and made our decision to move in 1993. The children were age four and the youngest was only 6 months old. Originally we thought about living in Scamander or St Helens, but there was an opportunity to open up the salon at St Marys so we settled here. It's just a wonderful place with very

friendly locals who all made us feel a part of the town.

The salon has built up to be everything and more than what we expected, therefore allowing us to employ an apprentice which has been a good opportunity for Kelly who always wanted to be a hairdresser.

Every couple of months we go back to Hobart to visit our family and friends but I'm always very happy to return back to the quiet little town of St Marys

## THANK YOU

We would like to thank Lina Louis and Barbara Harris for the preparation of the food and treats for the children's party at the Cornwall Hall on the 24 August 1996. Also Derek Peardon, Rachel and Murray Louis for decorating the hall and Mathew Harris. Management and staff of St Marys Super Value Supermarket for making up and delivery of grocery orders. Mathew Harris, Les Palmer, Ivan Grose, Kylie and Deanna Peardon, Bong Bong, Francis, Lazzareth and Hymie Louis, Andrew and Damien McCulloch, Amanda McPhee and Kristy Musicka for their help making decorations and icing cakes. Debora McCulloch and Michelle and Tania Salonen for helping clean the hall afterwards. Also all who brought their children along at such short notice.

Roy & Ida Hjortshoj

# Tennis News

## ANNUAL GENERAL MEETING

The St Marys Tennis Club held its AGM on Thursday 22 August with an excellent attendance of 19 - the best for many years.

The outgoing president expressed appreciation for the continued voluntary support the club received during the year and with the interest shown, the future of the club seemed assured.

## NOTICE

THE GREEN is coming up nicely, the clobber is washed, ironed and spruced up. Bowls are being polished and shoes cleaned. Everything is ready except for one little tiny detail **NO BOWLERS** or not enough anyway. The Sports Centre extends an open invitation for enquiries from men, women, boys and girls to try a new game. It's not an old persons game, it is just a game that older people can play. Our Club has many younger players in mens bowls but a bit light on with ladies. Don't be shy. It's only a phone call away. For further information ring the Club on 63 722177 or any committee member.  
**SEE YOU ON THE GREEN**

# Football

It's been a while since we've done a report about football, so we would like to bring everyone up to date with the events of the last few months.

The club now has a General Committee of 30 and Ladies Committee of 17. Hopefully we will be able to put every one of them to work over the summer, as the Club has set themselves a few fundraising goals before the start of next season. The first catering task has been accepted and we hope everyone at the Netball Dinner has a great evening, so the Ladies are off to a flying start. A major raffle is being organised and tickets will be available soon.

The Juniors are off to Bicheno this Saturday, and although we are running short of time, plans for the Fingal game are still being finalised. A Friday night game under the lights at St Marys oval is planned for the 6 September. What a great sight this will be, all age groups are playing so get over to the ground for some great entertainment. Food and refreshments will be on sale. Also planned for the 21 September is the under 30 Coasties against the under 30 Hillbillies and - wait for it, the over 30 Coasties against the over 30 Hillbillies. Although the teams are filling fast, everyone will be guaranteed a

game on the day. This will be the wind up for the Juniors and a get together and fundraiser for the Footy Club. If you want a game contact Scott Gray or Alan Beach for the Coasties over 30's - Tim or Scott Mason for the under 30's and Paul Spilsbury or Glenn McDonald for the Hillbilly over 30's - Mark Williams or Adam Johnson for the under 30's.

The decision on the Association that we are going to play in will be made early in December, when we will advertise the coaching positions. (Despite what has been said, NO decision has yet been made). Due to the Club's undertaking, there will not be any contact with players until the end of the current season, so there are a busy few months ahead.

A Golf Fun Day for December and woodcutting yet to be finalised. Still a way to go yet, and thanks to everyone who has offered help in anyway, we now look closer to achieving our goals. More reports later.
