EDITORIAL

A BACKWARD STEP... The latest decline in consideration for the east coast is shown in the new bus services time table that purports to serve the east coast.

In fact the new time-table only serves half of the east coast - the bottom half. Anyone who lives north of Swansea, it seems, is to suffer further isolation.

In the new time-table the Swansea bus is now timed to leave for Hobart and return at hours only suitable for anyone south of Swansea. Residents from Coles Bay and Bicheno have not been considered, for if they are to make the trip to Hobart it will involve a night stopover at Swansea and needless to say at considerable extra expense. Neither can they go to Launceston for the day because there is no bus connection at St. Marys either.

This is a ridiculous and unfair situation and certainly not justified in an island as small as Tasmania. And as one irate Bicheno resident recently asked in 'The Examiner', 'Why can't the mail coach be licenced to carry passengers so a connection can be made with the St. Marys bus'. We ask the same question.

The same writer asks how the Minister for Tourists (Mr. Lyons) came to approve this new bus time table for the Tasmanian Bus Lines. We don't really know whether or not he did have to approve it, or whether or not he even knows about it, but as Bicheno is in the heart of the east coast tourist trade we hope it is possible he can do something.

For - as the writer again points out - this new time-table destroys the possibility of tourists - especially the droves of younger people who have in the past used these buses to travel from Launceston to Hobart via the east coast at a moderate rate. To do this trip now will incorporate two expensive stop-overs.

This means simply that the connections of one of the most picturesque local bus runs in Australia no longer exists.

(LILY) "WHEN HE SAYS DRENCHED HE DOESN'T MEAN RAIN, YOU SIMPLETON."

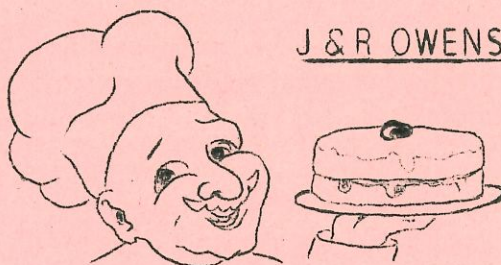

Editorial cont.

Hardly a reasonable situation in a state that claims it intends to become a major tourist state.

CLASSIFIEDS

Sir,

Cr. R.J. Hinds claims that his statements in the press 13/5/71 are true. I say he is misinformed.

As a representative of the Trotting Club on the Ground Committee I opposed the site of the building because it is inside the race track and therefore is of no use to other sporting bodies using the ground.

As these buildings are maintained by the ratepayers I consider they should be situated so as to be of benefit to all other sporting bodies, not just one.

As a Councillor representing the ratepayers I strongly oppose a rate to liquidate the Grant (plus interest) to complete the building as I consider it is not for essential services. It is the ratepayers right to ask for a poll to ascertain if they are in favour of the proposed rate, hence the petition to which Cr. Hinds now says he is not opposed after speaking out very strongly against in the press 13/5/71.

I would remind Cr. Hinds that support given to the Ambulance Service, the Domiciliary Service, etc. is voluntary and not imposed on the people by a rate and I would take this opportunity to congratulate the public on their very fine support of these very worthy services.

Building costs:-

On 15/3/71 the estimated cost of the dressing sheds was \$9,902.49 complete with all material, fittings and labour. At that date the Club had raised \$4,555.48. Balance required to finish the project - \$5,314.01.

On the 13/5/71 it was stated in the Examiner that the Club had now raised \$9,000 and the cost of the building was \$14,000. I fail to see where the extra cost is involved unless it is to cover the cost of the so-called voluntary labour.

C. Davis, St. Marys.

FROM THE PULPIT

"Remember that it is usually those who have patiently endured to whom we accord the word "blessed". You have heard of Job's patient endurance and how God dealt with him in the end, and therefore you have seen that the Lord is merciful and full of understanding pity for us men". James 5:11. The Christian attitude in physical suffering is the one most likely to speed recovery regardless of all the medical help. This attitude is one of trust in God, for all His blessings, for every ministry given him by others, for every step on the way to recovery, and for every evidence of mercy and grace. God responds to Christian attitudes and is able to do His best for the sufferer. Physical sufferers, rightly orientated with God, learn some things that others miss. They come to a more correct evaluation of what is really worthwhile. In life, their spirits are chastened, their motives are purified their sympathies are deepened, and their characters are sweetened.

DID YOU KNOW?

In the Shneller Woods section north of Jerusalem there is an interesting Zoo which exhibits every animal mentioned in the Bible, each in a pen marked with a quotation in which it is named. Of a hundred and thirty species cited in the Gospel, some remain mysteries to zoologists but all of the eighty birds and animals that can be identified by today's scholars are on display. The Biblical Zoo has had an exceptional history. It began in 1939 as a "modest animal life corner" in the city and has been moved three times - once by armoured convoy - and it has experienced the loss of its occupants to shrapnel and snipers during warfare. Now its population is restored, and it thrives on twenty two pleasant acres.

Just yarnin'

Who can remember the baking done in the out door oven at "Akaroa" in Gray? The oven was built of stone and mortar and lined with bricks. The space in the oven was 4 ft. in depth, 18" height and width.

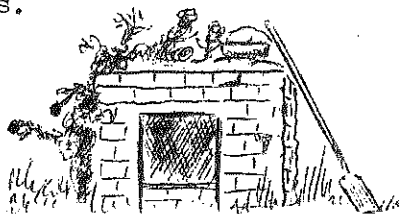

Over the oven was a shingle roof covered with pink climbing roses and along side stood the wooden bread paddle and the long handled rake.

The wood was collected in the bush and the oven fired. The coals were raked out and the cook would test the air in the oven with her hand to determine the correct heat. Then the bread went in on the wooden paddles and the door was dampened down with a hessian cloth to exclude all draughts. There was the delightful smell of home baked bread and the crock full of proofing dough.

Xmas time brought all the neighbours to bake their Christmas Cakes and what fun that was. They arrived with all the ingredients and every one helped with the mixing, the older children breaking the eggs and the younger ones pinching the currants when their elders were not looking. The cakes were placed in the oven and as they baked the children played and the elders gossiped and planned their Christmas fare.

The in was home in Bewglass' Motors to St. Marys or Jack Hill's to Bicheno. The old oven has also been used for a sucking pig that was too big for the ordinary oven and it would be cooked to perfection.

As the family went away and there was less cooking the oven fell into disuse and became an ideal place for snakes to hide. This sounded its doom and it had to be pulled down but there are still the memories of happy days and the memories of all those wholesome cooking smells mingling with the bush perfumes.

IN THE EYE OF THE LAW

We are now into the winter season, with consequent minimum daylight hours, and more hazardous driving conditions.

If you have not already checked your car or vehicle tyres, you are advised to do so, in the interest of your own safety, as well as that of other road users. Worn or defective tyres at the best of times are a risk, but in an emergency could be the cause of a serious accident, with perhaps even fatal result.

Traffic regulations have been designed to eliminate this defective use, and are quoted for general information:

"No person shall drive or use a motor vehicle or trailer, or permit them to be driven or used, on a public street, unless every tyre fitted there to complies with the following requirements:

- (a) The tyre shall be free from any apparent defect that is likely to render the use of the vehicle or trailer unsafe;
- (b) The tyre shall have a clearly visible tread pattern on every part that normally comes into contact with the road surface;

Some such defects have come under notice during the course of patrols and checks, and those responsible render themselves liable to prosecution.

All motorists are urged to give this aspect of their motoring strict attention, and by doing so, will greatly increase their chance of avoiding either of the aforementioned happenings.

FOOTBALL

TIGERS UNBEATEN.

Before going ahead with the "Footy Notes", I feel we must mention that the Tigers have not been beaten in the 1sts, 2nds, or 3rds, after first round. This is something which not many sides in Tassie can boast. The main reason for this I feel, is the terrific club spirit which exists at St. Marys.

Now for last week's games, "one-eye" being my Non-de-plume. I saw possibly the 2nd best game in these conditions, from a St. Marys side for years. (The best game played in this association ever in my time, was the Fingal V St. Marys game at St. Marys three weeks ago.) They defeated Avoca quite easily by 43 points at St. Marys in what was not good conditions after the amount of rain which had fallen on St. Marys. Both sides marked the ball overhead all day especially players like Anderson (Avoca) and Wardlaw, Bye, Birrell and McCarty (St. Marys). The footballer of the day was A. Lynch, who was not beaten all day, and on this game, should be in the F.D.F.A. side, not only on this performance, but in his last three games. I suggest that before we play the Midlands, we have a possible and probable game and pick our side from this on the Monday holiday and if players are interested they can attend. Other good players for St. Marys were Bushing, Turner, Tapp, Curry and Hayes. As the team played it would be fair to say all played well and it was a mighty team effort. For Avoca, besides Anderson, I thought Harvey, and Youd played well. Stagg a very promising player, Richardson until injured and Ruffin and Wilson their best players.

My St. Helens spy this week let me down as unfortunately he fell and broke his leg on Friday but I believe he is home again and will be able to give me mail from that end next week. Never to be beaten I found another spy who informs me that the Bay boys have really clicked again and are looking forward to getting back into the top bracket again after a quite convincing win against Swansea last week. The club here appeared to have got over their troubles and also improved by gaining a couple or three good recruits; so with Krushka, Salter, Mock and Riley, hitting their straps last week, most of the St. Helens boys found that once again they can win.

Swansea were most disappointing after their game the week before but have the players like Radford, Turvey, the two Cusicks, Singline and Gregson (a very promising young player), to go ahead and be a threat to any side in the camp.

Fingal continued on their winning way by beating Rossarden by 60 points in what I believe shocking conditions with the ground covered in water and mud. However, it is a winter game and this is what all footballers go through including the V.F.L., N.T.F.A., N.W.F.U., T.F.L., and all the teams from the back of Woop Woop, so don't grizzle boys because there were more than you playing in those conditions last Saturday. Fingal were too strong all over the ground and on Saturday's game they have found a new star in Mackenzie who could develop into a good forward for the Blues before the year is out. Fingal is still improving with Smith, Greg Sulzberger, Marshall and Singline hitting their straps and they should be the team to beat for the flag. Rossarden, the team I had a lot of confidence in earlier, have not progressed as I thought they might, but after losing Colin Cruickshank, a great footballer and sportsman, their only hope is to settle down and give Terry Lewtas 100% support.

They along with Swansea, could still give the top four teams a go. While we are on Rossarden, I would like to give Colin Cruickshank our best wishes from all the players and supporters of the F.D.F.A.

The match of the day this week will be at St. Helens where the Tigers go to try and continue their winning streak. However, I've heard that the Bay boys have different ideas. With a couple of new recruits they are going to be the first team this year to beat the Tigers, so they assure me. But with my record of only one wrong selection all the year, I will have to go for a tiger win by about 4 goals.

Fingal travel to Swansea and should win, but Swansea are always tough at home and provide a lot of opposition.

Rossarden and Avoca at Rossarden could be the upset of the day and I'm going for Rossarden to win narrowly
