Registered at the G.P.O. Hobart for transmission through the post as a periodical.

## WILDERNESS PRESERVATION

South West Tasmania (from the Lyell Highway, Cradle Mt. southwards) is an Australian heritage, as witnessed by the fact that each summer alone, thousands of mainlanders visit it. And this number is increasing as our youth become disenchanted with the "American Dream" of materialism, which has become Australia's dream.

We must ensure that as large as is practicable an area is set aside as wilderness for our "quality of life".

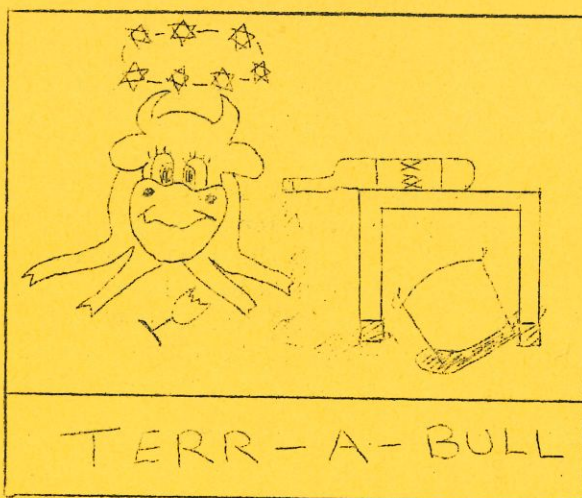

Two main arguments against wilderness preservation are common and unfortunately much emotionalism ensues from the controversy.

1) Employment. It's often been said that there must be continued development of natural areas to provide jobs. Unfortunately, those most dependent on their current pay packet, cannot (understandably) see beyond it. However, I do note that some of those who do complain that their jobs are in danger, are often those who possess many of our unnecessary luxuries, (colour T.V., dishwashers, freezers etc. which things are cited as an excuse for providing more power to operate them). That is some people are using employment as an excuse for the purchasing of these items, and I wonder how many families are so dependent on their pay packet for survival alone, as many would have us believe.

At least some of our youth are realising that "quality of life" does not completely lie in material goods that are unnecessary to survival and are turning instead towards our natural heritage.

Employment can be found, (and the government should see some responsibility here) in providing Tasmania with this elusive "quality of life". For instance, more hospitals, old age homes, homes for disadvantaged children, recreation centres for all ages, controlled tourism and wilderness preservation. The latter 3 are important for all citizens, especially in Tasmania, as our youth often complain of boredom (often from the very luxury items they possess) and too often do we see them roaming the streets looking for "kicks".

Perhaps we have to start planning and saving in our lives to enable us to see beyond our next pay packet and thereby save our wilderness heritage from exploitation.

To achieve our "quality of life" there will have to be less private industry based on the principle of growth ad infinitum. (For what happens when all the trees are wood chipped for unnecessary excessive packaging, and all the minerals mined, and all the rivers dammed; what then?)

2) Wilderness visitors. Many people say that only a select few can visit wilderness. I maintain that anyone with standard health (and some basic information and experience) can visit it. Even families could venture in for a few days, if they took the interest to prepare themselves. Wilderness is for all.

### Conclusion.

If we destroy wilderness now, through carelessness or short term gain, it will be gone. Wilderness is not a renewable resource.

# RETURN THANKS

Mrs. Maisie Pilgrim of Cornwall would like to thank all the nurses and Sisters at the St. Marys Hospital for their kindness. Also all her friends and relatives for the lovely cards and flowers sent to her while in Hospital.

Thankyou.

## NEWS ITEMS

The Local Member of Parliament Andrew Lohrey M.H.A. contacted the Minister for Transport the Honourable G. Chisholm about the rail service to St. Marys. Mr. Lohrey said he had been told by several local people that there was a rumour about the rail service from Fingal to St. Marys being closed down. If this happened it would seriously inconvenience all residents of St. Marys and the coast as well as put men out of work.

The Minister told Mr. Lohrey that there was absolutely no truth in this rumour at all, he said the Transport Commission had no plans to close any part of the Launceston to St. Marys railway down. The Minister suggested that as a State election was close anti-Government rumours were to be expected.

The Minister for Health Mr. Lowe announced that \$1500 had been allocated for the establishment of a Community Health Service for Fingal. The Government had made a commitment for a District Medical Officer at Fingal and at present was looking at present was looking at the situation. This is still being considered.

Mrs. May Oliver has returned to Mangana after several weeks stay with her daughters in Hobart.

Mrs. Seccombe of Bellereive spent a few days with her mother Mrs. Oliver at Mangana.

Everyone at Mangana is pleased to see Mrs. Ethel Johnson home again after a stay in Launceston Hospital.

The Guides and Brownies of St. Marys did a marvelous job for the St. Johns First Aid. They raised \$219 and got a lot of names for the classes in First Aid which will be held early in the New Year; as its a 12 week course there isn't time before Xmas.

## FISHING NEWS

Scamander Angling Club held a bream contest in the Scamander River last Sunday. In spite of early heavy rain, 38 anglers entered and some returned with good bags. Five fish exceeding one pound were weighed. Top weight and first prize went to Tom Stone whose fish weighed 2lb 9 oz. Second was Trevor Connelley with 1lb 9oz, and third Tony Cooper with 1lb. 5oz. Ladies trophy was won by Miss C. Males who joined the Club just shortly before starting. The best junior was Robert Schier with 1lb. 11 oz Bream. The entries were somewhat reduced due to a clash with yet another eightball barbecue. At this function, one of our lady anglers sprinkled several male members with what was described as a special bait. The results were varied but Perce Harding obtained the best. You will have to ask Perce to tell you as we could not print it. Supplies of this bait can be ordered through Glen Sachse or rather through his wife. The brand is a four letter word beginning with A and ending with N. St. Helens Surf Angling Club held a contest on the same day at Wrinklers. There were 24 anglers who landed a total of two fish for the day. Winner was their latest hot rod, Jim Howard while Kay Tittley received the Ladies trophy with a fish which judges thought was her bait. The next event on the fishing calendar will be run by St. Helens on 5th December at Diamond's Basin from 4 to 10pm. Scamander will run one at Four Mile on 2nd. January 1977 from 3 to 8pm, and another heat of the casting contest will start at 2 pm. if committee members have recovered from New Year's Day.

### ST. HELENS GUN CLUB

PRESS STATEMENT

From Sunday October 31st there will be some major changes in programs heard from 7 NT and 7 QN.

The main changes will be in the evening, when the two stations will be linked with the ABC's national Radio 2 network.

This will enable 7NT and 7QN listeners to hear the best of the ABC's fine music and spoken-word programs, many of which have not previously been relayed outside capital cities.

Mr. Murphy the ABC's Acting Program Director, said the new format would incorporate in-depth discussion, reportage and interviews; imaginative documentaries and drama; and for the music-lover there would be 'live' concerts and recorded music programs ranging from traditional through contemporary to experimental.

Among the most important programs to be heard from 7NT and 7QN for the first time will be 'Sunday Night Radio 2'. Lasting up to 3½ hours, it comprises high-quality spoken-word and music segments without set duration. It is designed to make the best possible use of radio for original and creative work of all kinds.

The ABC's lively and controversial discussion program, 'Lateline', will be heard at 10.25 p.m. Mondays to Thursdays. The series is intended as an outlet for the best discussion material available in Australia and beyond, dealing with topics of social concern, the arts, the media, and issues of current interest.

Another new weekly program will be 'Investigations', featuring research into subjects of national and international importance. On Wednesday 10th the subject will be "Paul Ehrlich and the Nuclear Future".

From time to time there are 'phone-in' segments in the 'Investigations' series allowing listeners to put their views and their questions

Listeners to 7NT and 7QN will also now be able to hear the ABC's Friday night Music Magazine in which Glen Menzies covers the music scene at home and overseas. For jazz lovers, Eric Child's Program will start at 8.00 p.m. and will be extended to two hours.

COMPANION PLANTS (CONTINUED)

Plant garlic near your roses and fruit trees aphids hate it, also leaf curl in peaches and stone fruit is helped by it a lot. Fat hen and nettles should be allowed to grow in the garden as they improve the soil, contributing valuable elements rather than draining the soil of them. Grow lettuce and carrot together radishes and strawberries, parsley as a border around the tomatoes, asparagus & roses. Minionette is also a help planted near roses. Peas are compatible with radishes, carrots, cucumbers, sweet corn, beans and turnips, they don't like onions garlic or early potatoes, although you can plant potatoes after the peas as they thrive on the nitrogen left from the pea roots. Tomatoes like chives, onion, parsley, asparagus, marigold, nasturtiums and carrots, but dislike potatoe, fennel or cabbage.

There is a growing interest in herbs of late, the seeds are quite easy to procure from major garden shops in Launceston and Hobart and the less known varieties from Nurseries on the mainland. Anyone interested could write to the Valley Voice and we will gladly give the addresses. Herbs are interesting to grow as they are so distinctly different from the plants one normally finds in the garden. The scents are varied and flowers often remarkable. Also they can be used for a variety of things around the home, from insect repellents to mild, harmless sedatives to aid sleep.

Catmint: Rats dislike it.

Fennel: Disliked by fleas, grow near kennels or stables.

Lads Love: Repellent to most insects an excellent substitute for moth balls, mixed with Rue and Tansy.

Valerian: a very effective tea if taken before retiring to promote sound sleep.

Lemon Balm, Borage and Thyme will attract bees to the garden, many will know how beneficial bees are in the garden they are essential for pollination.

THINGS

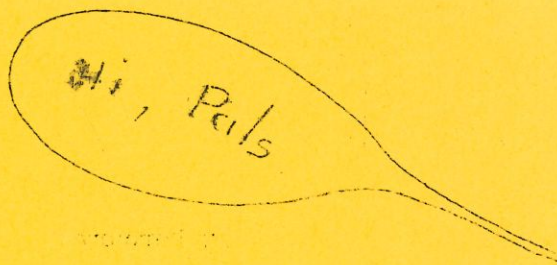

The things I sow somehow don't grow - I'm sorely disenchanted; but O, what luck I have with stuff I never planted,

One young thing to another "He's got a heart as big as all outdoors - and just as polluted."

# STAR DUST

Fortnight beginning Sept. 24

By Mercury

ARIES March 21 April 20

Listen to others advice, they may have ideas of value; co-operate, use tact, do not lose your temper. Some good friendships seem to be the starting point in a new trend of affairs. Lucky Days 26, 30.

TAURUS April 21 May 21

Soft pedal your own opinion and don't be possessive as you could lose out unless you use tact and good manners. Be careful for finances may wobble a bit, but business looks good. Lucky days 25, 4.

GEMINI May 22 - June 21

Get all tasks completed soon which are hanging fire, keep your hands and minds active as you could get a speedup in all your actions. A surprise piece of luck could come your way. Lucky days. 30, 7.

CANCER June 22 July 22

The under-privileged, poor people and elders may call upon you for support and help. Your days are filled with activity it may be creative in which case the results could be extremely worthwhile even if strenuous. Lucky days. 26; 1st.

LEO July 23 Aug. 23

Aspects now will make you feel more sober and realistic, sound advice comes to you and you should take it, You will gain a great deal from diplomacy and co-operation. A good time for a health checkup. Lucky days 2, 4th.

VIRGO Aug. 24 Sept. 23

Mental pursuits favoured, children's interests may be in the foreground now, attend to their needs and express yourself creatively and explore all possibilities for travel and sport. Lucky days 30, 6th.

LIBRA Sept. 24 Oct 23

Attend to property and family issues now. Influences are definitely beneficial and will bring you a sense of balance in the pursuit of a goal you think beyond you. A friend could help and do much. Lucky days 5, 7.

SCORPIO Oct. 24 Nov. 22

You could take a short trip which could have unexpected benefits for you. Your powers of self expression are slow but deep, make use of them, its important you should use all the powers and initiative you possess. Lucky days 28, 5th.

SAGITTARIUS Nov. 23 Dec. 21

A good time for further business and career matters with long term results, you may meet an old friend or get a letter from a friend, this will stop you from some sudden action and help you to view things in a broader light. Lucky days 29, 5th.

CAPRICORN Dec. 22 - Jan 20

A problem of long standing may be resolved and finished with, do not neglect responsibilities entrusted to you. This is a good time to deal with elders, and people less fortunate than yourself, take time to think. Lucky days. 5, 7th.

AQUARIUS Jan. 21 Feb. 19

Aspects good for practical business problems and career gains, give attention to original and creative ideas, but refrain from arrogance and pride. Artistic interests are well supported, look after your friends. Lucky days 25, 3.

PISCES Feb. 20 March 20

Be honest and sincere as you move forward, you may choose to serve others. Be compassionate. Old friends will prove better than new ones, and some old ones may come into your life unexpectedly. Take reasonable exercise. Lucky days 1, 4th.
